SHEA AGAIN reminded all veterans to bring their original report of separation, DD 214. Photostatic or certified copies will not be satisfactory.

Next of kin of deceased Korean veterans will be required to write to the compensation fund office in Columbus for special application forms.

Such letters should be addressed to Chester W. Goble, Director of the Korean Compensation Fund, 293 E. Long St., Columbus 15, Ohio.

Next of kin are defined as the surviving wife or husband, children, or parents, in that order. No other kin is eligible.

Marine Guilty Of 4 Minor Accusations

PARRIS ISLAND, S. C. (AP)—A husky marine drill instructor was convicted Friday of four counts of tapping or touching recruits. He faces sentencing today.

Cpl. William R. Walsh, Lyndhurst, N. Y., had been charged with 24 counts of mistreatment of recruits. He was found innocent of 20 by a special court-martial board after four hours of deliberation.

The board reduced the severity of the four remaining charges. The word "struck" was removed from the charges and changed to either "tapping" or "touching."

The 25-year-old, 6-foot-2 Walsh had been charged with striking Pvt. David Lee Porter, 18, of Hartford, Vt., the government's chief witness. This charge was thrown out but Walsh was found guilty of touching Porter illegally.

The trial, fourth here in less than a month involving drill instructors charged with mistreating recruits, was touched off by Porter in a letter to his father. He claimed he was struck by Walsh with an iron bar. In testifying, Porter said he had been struck but did not know with what.

Slippery Highways Blamed As 4 Youths Die In Crashes

By THE ASSOCIATED PRESS

Twenty-year-old twin youths were killed by one collision on U. S. 20 near Geneva, and two Ohio University freshmen were killed in another collision on Ohio 3 in Medina County Friday night as heavy snows left northern Ohio highways slippery.

Twins Ronald H. and Donald H. Miller, formerly of Myersdale, Pa., were thrown from a car by the force of a collision one and a half miles west of Geneva in Ashtabula County.

The two had been working recently in Geneva and were riding in a car driven by Robert C. Lindeman, 20, also formerly of

Myersdale, Pa., and now working in Geneva.

Lindeman's car, heading east on the slush-covered highway, was in collision with a westbound car driven by Pasquale Mauri, 46, of Ashtabula.

The Ohio University students were identified by the patrol as Ray Weschler, 19, and Nelson W. Morris, 18, both of Cleveland.

WESCHLER'S CAR collided with a southbound truck driven by Adrian Mathias, 32, of Coshocton, half a mile south of Seville.

Earl Motz, 18, of Lakewood, who was riding with Weschler, was in fair condition today in Lodi Community Hospital. He suffered possible internal injuries.

Two other Ohio University students riding in a car following Weschler's, suffered minor injuries when their car also became involved in the smashup. The two are Dante Malmone, 22, and Kenneth Spirkio, 21, both of Cleveland. Both were treated at the hospital and released.

Friday's snow closed several schools in Richland County as well as in Trumbull County.

East Liverpool reported a four-inch snowfall that snarled traffic and tied up school bus operations in Columbiana County.

Three inches had fallen by Friday night in Cleveland.

On the Ohio Turnpike, speed was cut to 40 m.p.h.

Paper Hears Pan-Am Fund Knocked Out

CLEVELAND (AP)—The Cleveland Plain Dealer, in a report from Washington, said today the White House disclosed at a conference Friday that a House appropriations subcommittee has tentatively knocked from the budget nearly \$5 million for the 1959 Pan-American games in Cleveland.

The disclosure was made by presidential assistant Howard Pyle, the Plain Dealer said.

Among those attending the conference were Cleveland Mayor Anthony J. Celebrezze, Douglas Roby of Detroit, who heads the games committee, and some members of the Ohio delegation to Congress, including Sen. Frank J. Lausche (D-Ohio).

Lausche, after the meeting, said he had heard nothing to change his opposition to the \$4,900,000 appropriation. Congress last year passed an authorization bill and a \$100,000 appropriation measure.

Celebrezze said after that conference and a round of other meetings on Capitol Hill he still is encouraged by the interest he found and hopeful that the House subcommittee will reverse its earlier, informal stand.

Although most Ohio House members are backing the appropriation, at least two, Reps. Brown (R) and Bow (R), have publicly announced opposition.

Sponsors are counting on the federal appropriation, plus state, county and city contributions to raise an estimated \$13 million to stage the games here.

Kidnaper To Get Medical Tests

CLEVELAND (AP)—Larry Soules, 20, of Brookfield, Trumbull County who pleaded guilty to kidnapping, has been ordered to the federal diagnostic center at Ashland, Ky. Soules pleaded guilty to kidnapping a 13-year-old boy in Sharon, Pa. while on furlough from the Air Force last October. He drove the boy across the state line into Ohio.

Federal Judge Paul C. Weick Friday asked for a medical report from the diagnostic center within 60 days and said he will dispose of the case after getting the report.

Oregon Mayor Due To Take Test Of 'Lies'

Senate Probers Seek Truth In Story \$500 Bribe Paid Official

WASHINGTON (AP)—Mayor Terry D. Schunk of Portland, Ore., faced a lie detector test, possibly today, on his denial that he accepted a \$500 bribe to call off a gambling raid.

Robert F. Kennedy, counsel for the Senate committee probing alleged labor-industry racketeering, was trying to arrange the test.

Schrunk, a Democrat, swore Friday he never accepted the bribe. He agreed to undergo the lie detector test although he admitted he flunked a similar test on the same subject in Portland.

Half a dozen other witnesses have told the committee of the alleged bribe of Schrunk in 1955 while he was sheriff of Multnomah County (Portland).

Committee Chairman McClellan (D-Ark) said it was apparent somebody had committed perjury. He said he was asking the Justice Department to investigate conflicts in testimony.

THE COMMITTEE is probing charges that high Teamsters Union officials combined with Portland racketeers and public officials to try to take over the city's vice profits.

The sessions are in recess until Tuesday.

Schrunk claimed testimony against him was a "frame" which he said was engineered by Portland gambler James B. Elkins. According to Elkins' testimony, Teamsters Union officials tried to "muscle in" and control Portland vice. He said he went along with them until he suspected they were about to dump him.

Elkins has said that two Seattle gamblers, Thomas Maloney and Joseph McLaughlin, were sent into Portland to take over and expand vice operations.

He said they were sent by Frank Brewster, Teamsters Union chief on the West Coast.

Maloney and McLaughlin were recalled as witnesses Friday and both again invoked the Fifth Amendment in refusing to answer questions on this score or on any connections with Brewster. They claimed their answers might incriminate them.

During Schrunk's testimony that he had tried, while sheriff, to clean out vice, Kennedy produced a list of 35 gambling or prostitution places he said committee investigators had found.

Farmers Warned On Wheat Violation

TOLEDO (AP)—Federal Judge Frank L. Kloebe warned Friday he would "begin handing out stiff sentences" to farmers who violate the law establishing wheat quotas.

Before him on a contempt charge were Walter Carpenter and his son James, both of Defiance, and George Miller of Fayette.

Assistant District Attorney Clarence M. Condon said the three ignored orders to file wheat reports for the 1954 growing year last September, filing them only last Friday when today's hearing became imminent. Condon said all three refused to permit federal agents to visit their farms.

Last Major Obstructions Being Removed from Suez

CAIRO (AP)—Egypt has started preliminary work toward removal of the last major obstructions in the Suez Canal, but U.N. salvage authorities still awaited a go-ahead for the final clearance.

Egyptian engineers began operations on the 841-ton tug Edgar Bonnet, sunk midway in the 103-mile waterway near Ismailia during the British-French and Israeli invasion last fall. They said they had to remove explosives from the vessel first.

When the ships are removed, vessels up to 10,000 tons will be able to sail the entire length of the canal. But Egyptian officials have made it clear this does not apply to Israeli shipping, which was barred even before the October-November fighting. Egypt maintains it is still technically at war with Israel, despite the 1949 Palestine armistice.

Meanwhile, eight small vessels,

all under 500 tons, transited the canal Friday. This was the first large movement of shipping since the waterway was blocked more than four months ago.

With the end apparently in view to physical barriers in the canal, the West squared off for negotiations with President Nasser over how the canal will be operated.

The Egyptian president ordered the nationalization of the waterway last July 26 and Egypt set up its own Suez Canal Authority to direct its operation.

Reports from Washington, said the State Department was prodding Nasser cautiously for an answer to the last Western proposal for collecting canal tolls, which used to total \$100 million annually. Last month the United States, Britain, and France told U.N. Secretary General Dag Hammarskjold they favored letting the World

Bank or some other neutral international agency collect tolls.

Under the plan, the agency designated would give Egypt 50 per cent of the income for operating costs of the canal and retain the remainder until the canal question is settled permanently.

However, American officials believed Nasser was proceeding with his own plan for operating the canal on Egyptian terms.

While the focus of world attention shifted back to the canal, Israeli forces turned over to the U.N. Emergency Force the Sharm el Sheikh area guarding the entrance to the Gulf of Aqaba. U.N. officers said their troops would patrol the coastal area and set up observation posts. About 200 Finnish troops in UNEF took over from the Israelis.

Hammarskjold Now Pondering Ominous Signs

Preventing Renewal Of Old Egypt-Israel Feud Is Chief Goal

UNITED NATIONS, N. Y. (AP)—Faced by ominous signs of new trouble in the Middle East, Dag Hammarskjold today began work on long-range measures aimed at preventing a recurrence of Israeli-Egyptian conflict.

The problem was left in the secretary general's hands Friday night when the U.N. General Assembly adjourned its regular 11th session after hearing an official report that Israel had completed its withdrawal from the Gaza Strip and Sharm El Sheikh.

The assembly adjourned subject to the call of its president.

Chief U. S. Delegate Henry Cabot Lodge pledged the full support of the Eisenhower administration for the secretary general's peace efforts.

One of the most pressing problems appeared to be that of trying to get agreement for U. N. forces to be stationed on both sides of the 1949 Palestine armistice line to prevent a renewal of raids across the border from Egypt and Israel.

Many delegations, including the United States, feel that such an arrangement is necessary to stabilize the border area.

ALTHOUGH Israel has expressed firm opposition, Hammarskjold is expected to urge Premier David Ben-Gurion to reconsider.

The United States was represented as feeling that the days of the U. N. force may be numbered if it is stationed only on one side of the demarcation line.

Some countries already are talking about pulling their troop contingents out of the U. N. Emergency Force (UNEF), if Egypt asks the U. N. to withdraw from the Gaza Strip and the Sharm El Sheikh coastal area on the Gulf of Aqaba.

Another problem facing Hammarskjold is working out an agreement for the administration of the Gaza Strip which will replace the "initial" arrangement in Gaza must have the consent of Egypt.

Under the present setup, the UNEF and the U. N. agency for Arab refugees are working together in a temporary administration in the area. The population of the narrow coastal strip consists of 200,000 Palestinian Arab refugees and 100,000 nonrefugees.

Dispatches from Gaza reported demonstrators were demanding the return of Egyptian control to the Gaza Strip.

U. N. diplomats also indicated some concern over dispatches from Cairo quoting Egyptian officials as saying Israeli shipping would be barred from the Suez Canal when it reopens.

Any ban on Israeli shipping could be expected to aggravate the relations between the two countries and complicate Hammarskjold's task.

Con Makes A Pass At Woman (A Cop)

CHICAGO (AP)—A probationary policeman was discharged Friday after he was arrested in a Loop theater by a city policewoman who said he had molested her.

Gaston Cook, 35, who joined the force last October, was ordered fired by Police Commissioner Timothy O'Connor after Policewoman Jean Dornay said Cook made passes at her in the darkened Roosevelt Theater. She has been assigned to the theater at the request of the management.

Slayer's Attorney To Get \$5,000

FREMONT (AP)—The court-appointed lawyer who defended Samuel W. Tannhill in his first-degree murder trial here will receive a fee of \$5,000. Common Pleas Judge Arthur Tudor of Kenton decreed Friday.

The lawyer is Henry Stahl. Tannhill was convicted for the May 2, 1955, slaying of Mrs. Shirley Bradford, Fremont waitress, and was executed at Ohio Penitentiary Nov. 26.

News Briefs

Quakes Shake Greece Anew

ATHENS (AP)—New earth shocks caused further damage today in central Greece where two quakes already have almost destroyed 45 villages and communities and damaged some 4,000 buildings.

The disaster has caused one known death and injured between 40 and 50 persons.

Unofficial estimates said more than 20,000 persons were left homeless.

DAMASCUS, Syria (AP)—The Iraq Petroleum Co. announced that work on repairing its damaged pipelines through Syria started today.

HISANOYAMA, Japan (AP)—High tides swept over a 60-foot embankment Friday and inundated 55 houses. There were no casualties.

NEW DELHI (AP)—Prime Minister Nehru's Congress party today won its third state legislative majority in India's second general election.

Latest returns gave the Congress party 149 seats so far in the 288-seat Madhya Pradesh state legislature. The combined opposition had 40 seats with the balance still unaccounted for.

Congress had already won majorities in Andhra and Assam states.

JOHANNESBURG, South Africa (AP)—Four hundred policemen broke up a riot outside a beer hall Friday night after Africans stoned and damaged 30 to 40 automobiles. No one was hurt seriously.

The trouble began when 200 Africans became impatient after being told to queue up for a refund after complaining of the quality of the beer.

MANAGUA, Nicaragua (AP)—A strong earthquake shook Managua Friday night. No casualties or property damage were reported.

Seltzer told the radio audience that in today's "visual" world, the photograph is as important as the written word.

Meanwhile, support for the Press position came from the New York State Society of Newspaper Editors. The president of the society, Charles A. King III, said in Utica, N. Y., the canon is "an archaic and unrealistic device held out as a bulwark of orderly court procedure."

They said his knowledge of medical language was so extensive that he talked his way into the operating room at the Niles City, Mont., Veterans Administration Hospital. He was arrested on a check charge later.

Ike Signs Bill Offering Aid To Mideast

WASHINGTON (AP)—President Eisenhower today signed the Middle East resolution declaring this country's readiness to fight if necessary to block any Communist aggression in that troubled area.

The President said in a statement that the proposal, which he recommended to Congress two months ago, marks "an important forward step in the development of friendly relations between the United States and the Middle East area."

It is, he said, a "further demonstration of the will of the American people to preserve peace and freedom in the world."

The resolution declares a readiness to use U. S. forces, if necessary, to counter any open aggression by the Communists in the Middle East, provided a nation under attack asks such aid.

It also authorizes Eisenhower to spend up to \$200 million for military-economic aid between now and July 1 in the area.

Ambassador James P. Richards plans to leave Tuesday at the head of a presidential mission to explain the American program. The Richards mission will make recommendations on military and economic assistance.

The President's signature today marks the end of a drive for a Middle East resolution on which Eisenhower and Secretary of State Dulles placed an "urgent" tag.

General Telephone Pay Scale Said Below Minimum

WASHINGTON (AP)—The president of the Communications Workers of America said Friday some operators of General Telephone Co. of Ohio draw starting wages 7 to 10 cents an hour below the minimum for employees covered by federal law.

Joseph A. Bieme appeared before a Senate labor subcommittee in support of legislation to extend coverage of the minimum wage law to thousands now exempt.

Bieme said a \$1.25 hourly wage "is the smallest amount that will bring bare subsistence to an American family."

He said telephone exchanges of less than 750 stations are singled out to be exempted from the Fair Labor Standards Act. He said beginning operators draw the low pay at such areas as College Corner (219 telephones), Lewisburg (663) and Manchester (531).

Convict Asks More Time To Finish Study

INDIANAPOLIS (AP)—A bogus Army surgeon who wanted to stay in prison long enough to finish a correspondence course in engineering is going to get to.

Frank Purness, 35-year-old Chicago truck driver now in the federal penitentiary at Terre Haute, Ind., pleaded guilty in federal court Friday to impersonating a federal officer and transporting stolen goods.

When Judge William E. Stickler sentenced him to six more months in prison Purness said: "You'd think I'm crazy, sir, but I'd like to stay there another year so I can finish a correspondence course in industrial engineering. I couldn't afford to complete it if I were on the outside."

The judge sentenced Purness to 11 years, with eight suspended.

Federal officials said Purness left Chicago in his laundry truck in 1955 and took a 10,000-mile trip marked by a long series of worthless checks, a bigamous marriage and an amazing impersonation of an Army surgeon.

They said his knowledge of medical language was so extensive that he talked his way into the operating room at the Niles City, Mont., Veterans Administration Hospital. He was arrested on a check charge later.

Preventing Renewal Of Old Egypt-Israel Feud Is Chief Goal

UNITED NATIONS, N. Y. (AP)—Faced by ominous signs of new trouble in the Middle East, Dag Hammarskjold today began work on long-range measures aimed at preventing a recurrence of Israeli-Egyptian conflict.

The problem was left in the secretary general's hands Friday night when the U. N. General Assembly adjourned its regular 11th session after hearing an official report that Israel had completed its withdrawal from the Gaza Strip and Sharm el Sheikh.

The assembly adjourned subject to the call of its president, Chief U. S. Delegate Henry Cabot Lodge pledged the full support of the Eisenhower administration for the secretary general's peace efforts.

One of the most pressing problems appeared to be that of trying to get agreement for U. N. forces to be stationed on both sides of the 1949 Palestine armistice line to prevent a renewal of raids across the border from Egypt and Israel.

Many delegations, including the United States, feel that such an arrangement is necessary to stabilize the border area.

ALTHOUGH Israel has expressed firm opposition, Hammarskjold is expected to urge Premier David Ben-Gurion to reconsider.

The United States was represented as feeling that the days of the U. N. force may be numbered if it is stationed only on one side of the demarcation line.

Some countries already are talking about pulling their troop contingents out of the U. N. Emergency Force (UNEF), if Egypt asks the U. N. to withdraw from the Gaza Strip and the Sharm el Sheikh coastal area on the Gulf of Aqaba.

Another problem facing Hammarskjold is working out an agreement for the administration of the Gaza Strip which will replace the "initial" arrangement in Gaza must have the consent of Egypt.

Under the present setup, the UNEF and the U. N. agency for Arab refugees are working together in a temporary administration in the area. The population of the narrow coastal strip consists of 200,000 Palestinian Arab refugees and 100,000 nonrefugees.

Dispatches from Gaza reported demonstrators were demanding the return of Egyptian control to the Gaza Strip.

U. N. diplomats also indicated some concern over dispatches from Cairo quoting Egyptian officials as saying Israeli shipping would be barred from the Suez Canal when it reopens.

Any ban on Israeli shipping could be expected to aggravate the relations between the two countries and complicate Hammarskjold's task.

Con Makes A Pass At Woman (A Cop)

CHICAGO (AP)—A probationary policeman was discharged Friday after he was arrested in a Loop theater by a city policeman who said he had molested her.

Gaston Cook, 35, who joined the force last October, was ordered fired by Police Commissioner Timothy O'Connor after Policewoman Jean Dominy said Cook made passes at her in the darkened Roosevelt Theater. She has been assigned to the theater at the request of the management.

Slayer's Attorney To Get \$5,000

FREMONT (AP)—The court-appointed lawyer who defended Samuel W. Tannhill in his first-degree murder trial here will receive a fee of \$5,000. Common Pleas Judge Arthur Tudor of Kenton decreed Friday.

The lawyer is Henry Stahl. Tannhill was convicted for the May 2, 1955, slaying of Mrs. Shirley Bradford, Fremont waitress, and was executed at Ohio Penitentiary Nov. 28.

"Mary Hawthorth's Mail"

DEAR MARY HAWORTH: I am a widow and I have a job from 10 a. m. to 4; but I am always home to prepare supper. Often I do extra work in the evenings, from 7 to 9.

I have a daughter, age 18, now in college. When she entered college she told me: "From now on I will go out any time I please, and stay out too; and I don't have to ask your consent, because I am an adult." I had always wanted to know where, and with whom she went; and wanted her to be home by or before 1 a. m.

Last night we had an argument, after she had come in at midnight. She had been gone since 4 o'clock in the afternoon, when she went to meet a friend to help her with shopping. Later they had something to eat and went to a show; but I didn't know this and was expecting her home by 7, as she had been out late six nights in a row—because a girl friend (from an out-of-town college) was here.

Have I a right to know where she goes? And when she will be here for supper? And when she will be home? She is facing the college "rush" season in the next few weeks and she says these "rushes" sometimes last until 3 or 4 a. m. I feel sure it is no time for her to be coming home.

I insist that she pay more attention to her school work and that such late hours aren't good for her health. Her answer is: "I have brains enough to take care of myself; and if you keep up this nagging, I will move out one of these days and take an apartment with another girl."

Ted Lewis Rates City Park Here Among His "Pets"

Circleville was the topic for much of the discussion last night when Ted Lewis, the city's famed native son and veteran showman, was interviewed with his wife on Ed Murrow's "Person to Person" TV program.

Viewers all over the district watched and listened as Ted told of difficulties encountered when his life story for the screen. The bandsman refused to go along with the idea when they wanted to subordinate Circleville "because it isn't colorful enough." He kept the city prominent in the script.

Ted also spoke in glowing terms about Circleville's Ted Lewis Park, named in his honor after his contributions made the big playground possible.

He described the big Northend park as "my pet" among his many philanthropies.

NEAR the end of the program, Murrow jokingly asked the stage-and-screen star if it's true he holds dictator strings on the Circleville mayor's job.

Ted laughed: "That's exaggerated quite a bit."

Social Security Filing April 15 For Clergymen

Clergymen who want social security protection, but who have not filed waivers of their social security exemption, should file the waivers by April 15, it was announced today by both the Internal Revenue Service and the Social Security Administration district offices.

By filing waivers last year many ministers, members of religious orders, and Christian Science practitioners elected to have their earnings in 1955 and subsequent years count toward old-age, survivors, and disability insurance. These waivers remain in effect and need not be renewed.

Other clergymen have not yet elected to be covered must file waivers by April 15 if they wish to have their earnings in 1956 and subsequent years count toward social security. The election is made by filing Form 2031 with the District Director of Internal Revenue. Form 2031 may be obtained from the District Director or from any Social Security Administration office.

After April 15, a clergyman who has not filed a waiver is barred by law from electing social security coverage if in each of the years 1955 and 1956 he received \$400 or more net earnings from self-employment, including any salary, fees, or honoraria as a minister, member of a religious order, or Christian Science practitioner.

A clergyman who elects social security coverage pays his tax as a self-employed person. His church is not liable for the tax. The tax rate for 1956 is three percent of self-employment income up to \$4,200.

Farm Group Attends Meet In Columbus

Several residents of Pickaway County were in Columbus Tuesday to discuss farm legislation with their representatives in the Ohio General Assembly.

Members of the local Farm Bureau took part in a morning briefing session on upcoming legislation affecting Pickaway County and then had lunch with Rep. W. E. Wallace in the Neil House.

Attending the luncheon from Pickaway County were T. M. Glick, president of the Pickaway County Farm Bureau, R. C. Palm, manager of the Pickaway Dairy, J. B. Stevenson, Loring Leist, Chester Noecker, directors of the Farm Bureau, and Lewis Hay, trustee of the Ohio Farm Bureau Federation.

Some of the top issues discussed were the general appropriations bill, now under study; the sales tax reform, ditch drainage, water and sewer line costs, brucellosis in livestock and obnoxious weed control.

The local members were among approximately 60 Ohio farm people from 13 southern Ohio counties.

This legislative tour to Columbus is one of a series staged by the Ohio Farm Bureau Federation, designed to permit farmers to observe procedures in the legislature and to present views to their legislators first hand.

Rise In Sales Tax Receipts Continues Here

Sales tax collections in 1957 from the sale of prepaid tax receipts continued to rise in Pickaway County over the corresponding period a year ago.

Collections in the county amounted to \$6,289.76 for the week ending February 23 according to State Treasurer Roger W. Tracy. This was an increase of \$730.02 or 13 percent over the same week in 1956.

However total collections in the county for the fiscal year which began last July 1, to date are \$20,905.36 or 7 1/2 percent behind collections for the corresponding period during the preceding fiscal year.

Sales tax receipts in the entire state for the week ending February 23 totaled \$3,270,708. This amounted to \$95,097 or a 2.99 percent increase over the \$3,175,611 collected during the 1956 period.

INCLUDING prepaid tax receipts, use tax and other collections, the cumulative grand total of fiscal revenues for the current fiscal year stood at \$153,676, 312 on February 23, 1957.

This amount exceeded the overall revenues of \$150,606,458 for the same period of the previous fiscal year by \$3,069,854, or 2.03 percent.

Although Pickaway was not among them, 36 counties, including Cuyahoga, Franklin, Hamilton, Mahoning, Stark and Summit of the eight major urban counties, have accumulated collections to date which exceeded collections for the same period in the last fiscal year. In addition, there were 22 other counties where their respective weekly collections exceeded the same week a year ago.

Living On Moon Said No Problem

DALLAS (U.S.—An Air Force scientist says modern science now can create an artificial environment which would sustain human life on the moon but that the problem is getting there and back.

LT. Col. John P. Stapp, chief of the Aero-Medical Laboratory at Holloman Air Development Center, N. M., said his lab is conducting tests on the creation of artificial environments.

"Tropical fish can live on the North Pole if they are kept in an enclosed aquarium at proper temperatures," Col. Stapp said. "In the same way, man can transplant an enclosure of human proportions anywhere he wants it. It will sustain life so long as proper temperatures, oxygen, pressure, food and water are available."

Acrid Fumes Billow From Chemical Fire

SOUTH POINT (U.S.—Fire ignited in 45,000 tons of fertilizer at the Allied Chemical & Dye Corp. plant early today generated clouds of acrid fumes that endangered a wide area.

Nearby communities in the Ohio Valley were alerted, and in Huntington the National Guard was summoned for emergency duty.

Firemen from nearby cities joined the plant's firefighting unit in combating the blaze.

The fire, in a storehouse, 100 yards wide, 600 yards long and 100 feet high, was still smoldering some eight and a half hours after it was discovered.

Mobile cranes were moved near the structure and hoses mounted on the booms to pour water into the fire area.

R. E. Smith, a public relations official at the plant, said the cause of the blaze and extent of the loss have not been determined.

Smith added that "the product is mixed fertilizer not classified as an explosive," but he warned that "products of the combustion are toxic."

Smith said long exposure to the vapors, which hover near the ground, can cause irritation of the nose and throat.

South Point is a community of 800 at the southernmost tip of Ohio on the Ohio River.

DALLAS (U.S.A.)—An Air Force scientist says modern science now can create an artificial environment which would sustain human life on the moon but that the problem is getting there and back.

Col. John P. Stapp, chief of the Aero-Medical Field Laboratory at Holloman Air Development Center, N. M., said his lab is conducting tests on the creation of artificial environments.

"Tropical fish can live on the North Pole if they are kept in an enclosed aquarium at proper temperatures," Col. Stapp said. "In the same way, man can transplant an enclosure of human proportions anywhere he wants it. It will sustain life so long as proper temperatures, oxygen, pressure, food and water are available."

Air Force Buying Slated For Probe

WASHINGTON (U.S.A.)—Staff assistants of a House subcommittee are expected to go to Dayton, Ohio, Sunday to investigate Air Force buying methods.

Chairman Hebert (D-La.) of the subcommittee for armed services investigations ordered Robert N. Tyler and Raymond Wilcover to make the investigation after conflicting testimony on a complaint about buying methods.

Hebert said some of the testimony will be shown the Justice Department to determine whether perjury was committed.

Copter Gasses Up

CAMPTON, Ky. (U.S.A.)—A pilot landed a helicopter on Main Street, bought 20 gallons of gasoline, then nonchalantly whirled away. One of the two men in the craft said the plane needed the fuel to get to Lexington.

Deaths AND FUNERALS

HARLEY E. DEFENBAUGH
Harley Edson Defenbaugh, 87, retired funeral director of Tilton and Laureville and widely known live stock farmer and co-founder of the Defenbaugh Funeral Home, 151 E. Main St., Circleville, died at midnight Friday in Home and Hospital.

Mr. Defenbaugh was born in Tilton on May 26, 1869, a son of Stephen and Mahala Pontious Defenbaugh. After his early education in Tilton public schools, he attended business college in Columbus.

After attending Dr. J. H. Clarke's lectures, he became licensed as an embalmer on Aug. 21, 1902. He then became affiliated with his father at Tilton, conducting the funeral business there which had been founded in 1840 by his grandfather, Peter Defenbaugh.

In June, 1895, he was married to Miss Anna Joch of Tilton, who along with a daughter, Miss Mary, preceded him in death.

Survivors are as follows: two sons, Harold, Circleville, and William, Laureville Route 1; one daughter, Mrs. J. William Long, Caldwell, N. J.; seven grandchildren; and eight great-grandchildren.

He was a member of Laureville Methodist Church, Masonic Lodge at Adelphi, K. of P. Lodge at Stoutsville and Odd Fellows Lodge at South Perry.

Friends may call at Defenbaugh Funeral Home Saturday evening and Sunday morning and then at the residence in Laureville beginning at 2:30 p. m. Sunday.

Funeral services will be held Monday at 3 p. m. in Laureville Methodist Church, with the Rev. Richard McDowell and Rev. Charles Reed officiating. Burial will be in Tilton Cemetery.

Acrid Fumes Billow From Chemical Fire

SOUTH POINT (U.S.A.)—Fire ignited in 45,000 tons of fertilizer at the Allied Chemical & Dye Corp. plant early today generated clouds of acrid fumes that endangered a wide area.

Nearby communities in the Ohio Valley were alerted, and in Huntington the National Guard was summoned for emergency duty.

Firemen from nearby cities joined in combating the blaze.

The fire, in a storehouse, 100 yards wide, 600 yards long and 100 feet high, was still smoldering some eight and a half hours after it was discovered.

Mobile cranes were moved near the structure and hoses mounted on the booms to pour water into the fire area.

R. E. Smith, a public relations official at the plant, said the cause of the blaze and extent of the loss have not been determined.

Smith added that "the product is mixed fertilizer not classified as an explosive," but he warned that "products of the combustion are toxic."

Smith said long exposure to the vapors, which hover near the ground, can cause irritation of the nose and throat.

South Point is a community of 800 at the southernmost tip of Ohio on the Ohio River.

Transit Expert Stalled By Traffic

CHICAGO (U.S.A.)—Virgil E. Gunlock, chairman of the Chicago Transit Authority, which operates the city's bus and elevated lines, was 15 minutes late for an important appointment.

Gunlock had taken a CTA bus to a Loop hotel to address the Kiwanis Club.

"What happened to me I am certain has happened many times to all of you," he apologized after being introduced as the guest speaker. "Traffic congestion, especially at more than 100 major intersections, has made it impossible for any of our buses to travel very fast."

Respond To Truth Is Sunday Theme At Presbyterian

Following the introduction of a series of Lenten sermons last week on the theme "Respond To Truth," the Rev. Donald Mitchell, pastor of the Presbyterian Church will present the first in the series Sunday morning entitled, "The Truth Of The Cross". Worship is scheduled at 10:30.

Many lives are lost each year in the scramble for wealth and fame, legitimate or otherwise. Many win the coveted treasure only to find that it adds little or nothing to health, happiness, and length of life on this planet.

Therefore, he who honestly joins the search after the Truth which is in the Central Figure of the Cross of Christ, finds not only supreme happiness of soul surpassing anything that material possessions can of themselves provide. He becomes primarily the possessor of Eternal Life and share-holder of the wealth of the whole universe.

The message will explore the Scripture in Isaiah 11, and Matthew 16.

During worship, the Junior Choir, directed by Mrs. Fred Tammany, will sing the anthem: "Come, Christians, Join To Sing". Other hymns will include, "In The Cross of Christ I Glory," "Immortal Love," and "Lord Speak To Me, That I May Speak in Living Echoes of Thy Tone."

The worship will be preceded by an hour of Bible study by classes for each age group, beginning at 9:30 a. m.

The Sunday School teachers and officers will meet for their regular conference on Wednesday evening. They will present a program for parents entitled, "John Timothy Martin, III, Child of the Church," in the social rooms of the church Friday evening.

Sunday afternoon, members of the cast for "Voices In The Wilderness" (acts one and three only), will meet for rehearsal at 1:30 at the church.

The Catechism Class will meet in the session room at 2 p. m.

WHAT A BIG BOOK!

Of course the Bible is big. Not only in size... but in the endless depth of the messages to man.

God never intended the Bible to be studied without help. When an Ethiopian official centuries ago wrestled with a passage from Isaiah, God sent the evangelist, Philip, to meet the man's chariot, climb aboard, and explain the text's reference to the crucifixion of Christ.

Explaining and applying God's Word are still two of the major aims of the Church. Every sermon, every lesson, every discussion topic your church offers is intended to focus your attention on the timeless truths of Scripture and help you thread them into the pattern of your life.

Cherish your Bible... read it regularly... and let your Church guide you to the richness of its message.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible, daily.

Sunday Services Are Announced At First EUB Church

"The Consequence of Sin" has been chosen by the Rev. O. F. Gibbs for his sermon subject Sunday morning in First Evangelical United Brethren Church. The service begins at 9:30 a. m.

The Senior Choir, directed by Montford Kirkwood Jr., will sing, "Christ Walked This Way Before". Miss Lucille Kirkwood will preside at the console of the organ and announces the following numbers: Prelude, "A Lenten Medita-

tion"; Offertory, "Adagio"; and Postlude, "Chorus of Praise".

Hymns to be sung by the congregation include, "We Have Heard the Joyful Sound", "There is a Fountain" and "Only Trust Him".

Raymond Reichelderfer will assist the pastor in the worship service. Sunday School in the children's department will convene in the service center at 9:30 a. m., with Miss Gladys Noggle, presiding.

Church School in the youth and adult departments will meet at 10:35 a. m. The Fellowship Hour of the Primary and Junior "Boys and Girls Fellowship" will meet in the service center, at 10:35 a. m.

Theme Announced At First Methodist

The minister of First Methodist Church, the Rev. Charles D. Reed, announces for his sermon subject in the duplicate worship services Sunday morning at 8:30 and 10:45, "A Way Which Seemeth Right." The Scripture lesson will be read from the Book of The Proverbs the fourteenth chapter, verses one through sixteen.

Hymns for the services will include "He Leadeth Me" and "O Master Let Me Walk With Thee". Mrs. Ervin Leist will be at the organ. The newly organized youth choir,

under the direction of Mrs. Larry Graham, will sing for their anthem "The Souls of The Righteous", in the 8:30 service.

The Adult Choir, under the direction of Charles Kirkpatrick, will sing for their anthem "Lift Up Your Heads, O Ye Gates" in the late service.

The Sunday School, under the leadership of its general superintendent Richard Plum, will meet at 9:30. The remodeled parsonage next to the church will be used for Sunday School purposes for the first time this Sunday.

The pre-kindergarten and kindergarten departments will meet in the upstairs rooms. Two classes from the Junior Department will meet in the downstairs rooms. This is the first step in an expansion program in the church.

The parish house will be used during the week for many other purposes. The newly acquired parsonage is located at 832 N. Court St.

The Junior Youth Fellowship and the Methodist Youth Fellowship will meet Sunday evening in the church at 5:30.

WHAT A BIG BOOK!

Of course the Bible is big. Not only in size . . . but in the endless depth of the messages to man.

God never intended the Bible to be studied without help. When an Ethiopian official centuries ago wrestled with a passage from Isaiah, God sent the evangelist, Philip, to meet the man's chariot, climb aboard, and explain the text's reference to the crucifixion of Christ.

Explaining and applying God's Word are still two of the major aims of the Church. Every sermon, every lesson, every discussion topic your church offers is intended to focus your attention on the timeless truths of Scripture and help you thread them into the pattern of your life.

Cherish your Bible . . . read it regularly . . . and let your Church guide you to the richness of its message.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible, daily.

Factors And Forecasts For 1957

Caution seems to be the byword in economic forecasting today. Despite the fact that gross sales continue to climb or hold steady, in most instances, profits are dropping. This condition has resulted in a cautious approach on the part of most market analysts in predicting the economic picture for the remainder of 1957.

There are also fewer optimistic "we expect to break all records" predictions from basic industries, probably because of a slight uncertainty in the business world which has been created by many factors.

Higher interest rates resulting in tighter credit, a continuing inflationary trend despite tighter money and the constant turmoil in world affairs are a few of the basic factors clouding the picture in the business world's crystal ball.

Hesitancy by business leaders to forecast trends seems to be based upon the premise that one of several opposing conditions will prevail in the near future—A continuation of the inflationary spiral, a recession due to tighter money, a sudden repeat of the 1955 consumer buying resurgence, or a repeat of the stubborn 1956 sales resistance by the consumer.

This, then in many business enterprises, is a period of reevaluation instead of action. Another question in the minds of the economists is the significance of the large increase in money diverted from sales markets into various savings channels by the public last year. An estimated \$14.5 billion was added to savings accounts, pension reserves, security holdings and other liquid assets over the previous year.

These savings could be the result of high-

er interest rates, or they may be merely a continuation of the pattern of the past several years which has shown concentrated consumer buying action every other year, with comparatively slack years in between. With the savings accumulated last year, if the alternate year buying spurge holds true, 1957 should be a better year than 1956 for business.

Oil Optimists

SO ACCUSTOMED is the U.S. to having the wherewithal to do things in a big way that it occasionally overestimates its capacity. When the Suez Canal crisis developed, it was reported this nation had an excess crude oil capacity of 2 million barrels a day. The calculation proved to be erroneous.

The oil is here, but the capacity to move it is not. The shortage of pipeline facilities from producing areas to Gulf ports was more of a bottleneck than the shortage of ocean tankers. A scarcity of supplies developed at Gulf Coast points. On the basis of supply and demand the price climbed.

Defense planners seek to keep the oil industry in readiness to turn on excess capacity to meet some emergency at any time. Oil without pipelines is of little more use than if it had been left in the ground, which makes it a safe prediction that the pipelines will be provided.

Guided missiles capable of hitting a pinpoint target 4,000 miles away will soon be a reality, it is predicted. Civilization marches on.

Hidden Faith Holding Firm

To a world that had resigned itself to the sweep of communism over Eastern Europe, the events of 1956 have been an astounding eye-opener.

The story of how the supposedly ultra-communist youth of Hungary were the first to storm the barricades against the Soviet overlords is now well known.

But also out of Europe, and even in the communist press, are coming other stories that show that for some young communists at least the party faith is only a veneer over a deeply hidden residue of an older faith.

A most interesting example of this was contained in a story that appeared recently in Po Prostu, a communist student newspaper in Warsaw, Poland. Written by a Michael Lewtak, it was cynically entitled, "Atheism Required by Official Appointment," suggesting that many feel they must be communists and atheists in order to get jobs.

Lewtak wrote: "These 'atheists' when they get married wait for a dark, gloomy, rainy and foggy night. For the ceremony to be performed, churches located in remote villages and lonely places are needed.

"The people have to devise the most fantastic excuses for their departure, such as

illness, or sickness in the family, an epidemic in their native village, and the like. These undaunted people, with marriage veils hidden in their suitcases, alight in places unmarked on the map in order to fulfill their aim in unknown churches in the presence of unknown witnesses and priest."

Somehow this picture of supposedly deep-dyed atheists going to such lengths to have a key ceremony in their lives performed in a Christian church shows all is far from lost behind the iron curtain.

Interest Rates

INTEREST RATES figure more prominently in the news than ever. Formerly set by bankers and other financiers, everybody from Congressmen to laborers now voices his opinion about interest rates.

Home building will suffer unless interest rates are increased, according to a theory now widely voiced. Reason: Money will not be available at present rates. Another viewpoint is that the poor home buyer should be offered money by the government at lower rates.

Anyway, as a wag once said, the man who invented interest was no dummy.

Return To Hard Money Urged

I was shocked to learn that the Nevada Republican State Central Committee has passed a resolution favoring sound money. I thought nobody cared. Jingle money has so long replaced sound money that I should imagine that several generations of young Americans had never heard of sound money.

To most Americans today, money is money. It is something to spend while you have it. It is something the government takes a share of and that no matter what you earn, there is too little, if any at all, left at the end of the year to make the slightest difference. One might as well spend it and call it a day.

These Nevada Republicans came out for sound money, including "a free market for gold and return to the hard money standard, with gold and silver coins and gold and silver certificates." Such a statement must upset the "Moderne Republicans" no end because they are even abler than the New Dealers and Fair Dealers in thinking out ways and means to spend the people's money.

The more the government spends on projects to maintain the peace of the world, the softer American money gets. Today, the American dollar is worth less than the Canadian dollar which does not bother our debt-ridden citizens too much but it will in

due course dawn upon us that the solution to the high cost of living is not higher wages but better dollars.

It is a little astonishing that the Nevada Republicans should so completely endorse the economic program of Senator George Malone who was singled out by Paul Hoffman in the now defunct Collier's Magazine as among those who were Republicans before 1952 and therefore are no longer useful to the country.

It is supposed to be a characteristic of a Neanderthal Republican to favor sound money and a scientific tariff and a respite from giving away the wealth of the United States even to those who do not want any of it. A Neanderthal Republican is one who believes that the Republican Party did not do so badly in the years between Abraham Lincoln and Herbert Hoover and who insists that imitation of the New Deal is not only flattery but an unnecessary pursuit of evil.

It will be interesting to observe how completely the Nevada resolution on sound money will be ignored and how we shall print more and more paper money until the taxpayer and voter gets tired of the inflationary processes and of high taxes and only elects in 1958 those who are pledged in advance and in writing to support tax reduction.

It has come at last that the ordinary American citizen who is not a Ph.D. is sick and tired of working for taxes and a tax revolt is in the offing. The politicians in Washington are getting the rumblings of this revolt in their mail and the volume of this sort of mail is increasing and members of Congress, particularly Republicans of the ancient variety who have to stand for election and do not depend upon White House appointments for their careers, are getting very worried. If the mail continues to mount up to the 1958 election, it

may be sad for some of these Republicans.

The radical Democrats, of the ADA type, are not as worried by inflation, as the conservatives are. They, the Democrats, believe, on the whole, that there is another election to be won out of inflation. That sort of thinking cost the Republicans the 1932 election, for they believed that there was another election to be won out of Prohibition. Old-timers will remember that in 1932, Franklin D. Roosevelt ran on a platform of Beer and Economy. He pursued both, until he discovered that taxing the rich was as popular as beer and a high ball. The New Deal was an afterthought.

Members of Congress are risking the opinion that the last easy spending bill will be the \$200,000,000 that the President proposes should be used in the Middle East. That bill has been passed, but the expenditures will be watched politically. It is now believed that very little of this money can be expended on constructive projects. For instance, building a road between two palaces in Saudi Arabia, so that the King may use his gold-plated Cadillac more often, is not seriously regarded as a constructive project.

DIET AND HEALTH

Children Learn Faster From A Patient Parent

By HERMAN N. BUNDESEN, M.D.

MOST of you parents of young children probably have your hands full with the youngsters along about now.

The children are tired of being cooped up in the house for so much of the time during the cold weather. Around the age of three or four, they just naturally do things with great energy. And there are a great many things they want to do.

Important Time

This is the time of life when teaching begins to play a very important role in a child's future. He learns more and learns it more easily if this teaching comes from someone he loves.

So let me caution you not to lose patience with your tot simply because he has been more or less underfoot all winter. Accidents and injuries are apt to result if you do.

Teaching a child safety habits, for example, shouldn't be neglected simply because it's easier to tell him not to do something after he already has done it.

Poor Way

Advising a youngster to "Stop that" after he has done something he shouldn't is a poor way of teaching him. It's a poor way of protecting him.

Keeping your youngster safe takes a lot of planning and forethought. So does teaching him safety fundamentals. Patient teaching by example does a lot more good than reminding a child that he has done something wrong.

Danger Spots

Keeping him out of cabinets and rows of drawers, for example, can be accomplished easily if you simply pass a ruler or some other stick through the handles. Sharp knives and pointed utensils, of course, should be kept where a child can't reach them.

But this isn't enough. You've got to show the youngster how these utensils are used and what they are used for. In this way he comes to realize that they are not toys, but have a definite use and that there is a definite time for their use.

Answer: Whiteheads are caused by blocked ducts of the sebaceous glands of the face.

The face should be steamed and the whiteheads squeezed with a whitehead extractor, or with the fingers over which a clean towel has been placed.

Business Plans Due To Hinge On Consumer

Public's Cash Tagged By Most Economists As Key To Future

By SAM DAWSON

NEW YORK (AP)—When the chips are down in the business game—as they are at this uncertain moment—what do company presidents look for first as a guide to future planning?

The amount of consumer income available for spending—according to a survey of executives by the American Management Assn.

Forecasting is a growing concern in industrial circles—and perhaps one reason that businessmen seem so much more vocal these days on economic trends, near and long distant, than they were before the war. It's getting hard to find one who won't read the tea leaves at any business luncheon.

In the biggest corporations forecasting now is a full time job for one or more trained economists. In many large and medium sized companies, and a number of small ones, economic soothsaying is a regular part time job for some official.

Most of this forecasting as a business method within the companies themselves has developed since World War II. Its closing months found so much perplexity about what would happen to business come peace that corporation began trying to find out for themselves rather than trying to evaluate conflicting outside guesses.

Increasingly, too, business planning has become a long-range item. Expansion programs are laid over a sizable span of years. Raw material reserves are sought to match guesses of future product demand. Research, product design, sales programs increasingly are aimed at the horizon as well as the foreground.

Careful and continuing forecasts become basis for decisions on construction, mergers, buying other companies, diversifying, ordering replacements of equipment or additional machinery.

Economic trend divining molds corporate budgets, schedules production, programs financing moves, sets inventory levels. The forecaster is consulted before finally deciding on market expansion, product design, hiring policy and investments.

To find out how they forecast business, the American Management Assn. surveyed 56 company presidents, mostly of small or medium sized concerns, and made a more intensive study of the activities in 31 additional firms, mostly with 10,000 or more employees and annual sales topping 100 million dollars.

Most of the 87—whether their products are consumer goods, industrial goods, or services—say they pay most attention to consumer buying power, since the consumer is their final judge. Next they watch trends in purchases,

"ALL PURPOSE DO-IT-YOURSELF KIT"

This is National Smile Week and to do my part I'm marketing a "Comedians Kit" which is being prepared with the aid of Dr. Schweine, Dr. Kitzenger and Joe Miller. Here's what's in it: 1. Pair of Checkered Pants (baggy). 2. 300 Jokes. (Sample—Comic: "A shark once bit off one my toes." Straight man: "Which one?" Comic: "How should I know? Those sharks all look alike." 3. List of sure-fire catch phrases such as: "Vass you dere Sharlie?" "Wanna buy a duck?" and "Dis is da place." 4. Life-size photo of a typical Joke Writer which you can kick and punch in the event of "no laughs." 5. Ted Mack's phone number. 6. A recipe for Custard Pie. 7. Extra large Applause sign. 8. 50 pages of Ad Libs. I wonder if Bob Hope started this way.

Factors And Forecasts For 1957

Caution seems to be the byword in economic forecasting today. Despite the fact that gross sales continue to climb or hold steady, in most instances, profits are dropping. This condition has resulted in a cautious approach on the part of most market analysts in predicting the economic picture for the remainder of 1957.

There are also fewer optimistic "we expect to break all records" predictions from basic industries, probably because of a slight uncertainty in the business world which has been created by many factors. Higher interest rates resulting in tighter credit, a continuing inflationary trend despite tighter money and the constant turmoil in world affairs are a few of the basic factors clouding the picture in the business world's crystal ball.

Hesitancy by business leaders to forecast trends seems to be based upon the premise that one of several opposing conditions will prevail in the near future—A continuation of the inflationary spiral, a recession due to tighter money, a sudden repeat of the 1955 consumer buying resurgence, or a repeat of the stubborn 1956 sales resistance by the consumer.

This, then in many business enterprises, is a period of reevaluation instead of action. Another question in the minds of the economists is the significance of the large increase in money diverted from sales markets into various savings channels by the public last year. An estimated \$14.5 billion was added to savings accounts, pension reserves, security holdings and other liquid assets over the previous year.

These savings could be the result of high-

er interest rates, or they may be merely a continuation of the pattern of the past several years which has shown concentrated consumer buying action every other year, with comparatively slack years in between. With the savings accumulated last year, if the alternate year buying spurge holds true, 1957 should be a better year than 1956 for business.

Oil Optimists

SO ACCUSTOMED is the U. S. to having the wherewithal to do things in a big way that it occasionally overestimates its capacity. When the Suez Canal crisis developed, it was reported this nation had an excess crude oil capacity of 2 million barrels a day. The calculation proved to be erroneous.

The oil is here, but the capacity to move it is not. The shortage of pipeline facilities from producing areas to Gulf ports was more of a bottleneck than the shortage of ocean tankers. A scarcity of supplies developed at Gulf Coast points. On the basis of supply and demand the price climbed.

Defense planners seek to keep the oil industry in readiness to turn on excess capacity to meet some emergency at any time. Oil without pipelines is of little more use than if it had been left in the ground, which makes it a safe prediction that the pipelines will be provided.

Guided missiles capable of hitting a pinpoint target 4,000 miles away will soon be a reality, it is predicted. Civilization marches on.

Hidden Faith Holding Firm

To a world that had resigned itself to the sweep of communism over Eastern Europe, the events of 1956 have been an astounding eye-opener.

The story of how the supposedly ultra-communist youth of Hungary were the first to storm the barricades against the Soviet overlords is now well known.

But also out of Europe, and even in the communist press, are coming other stories that show that for some young communists at least the party faith is only a veneer over a deeply hidden residue of an older faith.

A most interesting example of this was contained in a story that appeared recently in Po Prostu, a communist student newspaper in Warsaw, Poland. Written by a Michael Lewtak, it was cynically entitled, "Atheism Required by Official Appointment," suggesting that many feel they must be communists and atheists in order to get jobs.

Lewtak wrote: "These 'atheists' when they get married wait for a dark, gloomy, rainy and foggy night. For the ceremony to be performed, churches located in remote villages and lonely places are needed.

"The people have to devise the most fantastic excuses for their departure, such as

Return To Hard Money Urged

By George Sokolsky

I was shocked to learn that the Nevada Republican State Central Committee has passed a resolution favoring sound money.

I thought nobody cared. Jingle money has so long replaced sound money that I should imagine that several generations of young Americans had never heard of sound money.

To most Americans today, money is money. It is something to spend while you have it. It is something the government takes a share of and that no matter what you earn, there is too little, if any at all, left at the end of the year to make the slightest difference. One might as well spend it and call it a day.

These Nevada Republicans came out for sound money, including "a free market for gold and return to the hard money standard, with gold and silver coins and gold and silver certificates." Such a statement must upset the "Moderate Republicans" no end because they are even abler than the New Dealers and Fair Dealers in thinking out ways and means to spend the people's money.

The more the government spends on projects to maintain the peace of the world, the softer American money gets. Today, the American dollar is worth less than the Canadian dollar which does not bother our debt-ridden citizens too much but it will in

Children Learn Faster From A Patient Parent

By HERMAN M. BUNDESEN, M.D.

MOST of you parents of young children probably have your hands full with the youngsters all about now.

The children are tired of being cooped up in the house for so much of the time during the cold weather. Around the age of three or four, they just naturally do things with great energy. And there are a great many things they want to do.

Important Time

This is the time of life when teaching begins to play a very important role in a child's future. He learns more and learns it more easily if this teaching comes from someone he loves.

So let me caution you not to lose patience with your tot simply because he has been more or less underfoot all winter. Accidents and injuries are apt to result if you do.

Teaching a child safety habits, for example, shouldn't be neglected simply because it's easier to tell him not to do something after he already has done it.

Poor Way

Advising a youngster to "Stop that" after he has done something he shouldn't is a poor way of teaching him. It's a poor way of protecting him.

Keeping your youngster safe takes a lot of planning and forethought. So does teaching him safety fundamentals. Patient teaching by example does a lot more good than reminding a child that he has done something wrong.

Danger Spots

Keeping him out of cabinets and rows of drawers, for example, can be accomplished easily if you simply pass a ruler or some other stick through the handles. Sharp knives and pointed utensils, of course, should be kept where a child can't reach them.

But this isn't enough. You've got to show the youngster how these utensils are used and what they are used for. In this way he comes to realize that they are not toys, but have a definite use and that there is a definite time for their use.

QUESTION AND ANSWER

Q. L.: What causes whiteheads and what can be done for them?
A.: Whiteheads are caused by blocked ducts of the sebaceous glands of the face.

The face should be steamed and the whiteheads squeezed with a whitehead extractor, or with the fingers over which a clean towel has been placed.

Business Plans Due To Hinge On Consumer

Public's Cash Tagged By Most Economists As Key To Future

By SAM DAWSON

NEW YORK (AP)—When the chips are down in the business game—as they are at this uncertain moment—what do company presidents look for first as a guide to future planning?

The amount of consumer income available for spending—according to a survey of executives by the American Management Assn.

Forecasting is a growing concern in industrial circles — and perhaps one reason that businessmen seem so much more vocal these days on economic trends, near and long distant, than they were before the war. It's getting hard to find one who won't read the tea leaves at any business luncheon.

In the biggest corporations forecasting now is a full time job for one or more trained economists. In many large and medium sized companies, and a number of small ones, economic soothsaying is a regular part time job for some official.

Most of this forecasting as a business method within the companies themselves has developed since World War II. Its closing months found so much perplexity about what would happen to business come peace that corporation began trying to find out for themselves rather than trying to evaluate conflicting outside guesses.

Increasingly, too, business planning has become a long-range item. Expansion programs are laid over a sizable span of years. Raw material reserves are sought to match guesses of future product demand. Research, product design, sales programs increasingly are aimed at the horizon as well as the foreground.

Careful and continuing forecasts become basis for decisions on construction, mergers, buying other companies, diversifying, ordering replacements of equipment or additional machinery.

Economic trend divining molds corporate budgets, schedules production, programs financing moves, sets inventory levels. The forecaster is consulted before finally deciding on market expansion, product design, hiring policy and investments.

To find out how they forecast business, the American Management Assn. surveyed 56 company presidents, mostly of small or medium sized concerns, and made a more intensive study of the activities in 31 additional firms, mostly with 10,000 or more employees and annual sales topping 100 million dollars.

Most of the 87—whether their products are consumer goods, industrial goods, or services—say they pay most attention to consumer buying power, since the consumer is their final judge. Next they watch trends in purchases,

Consumer buying itself is determined by some sub-indicators. Chief factor: wages and salaries—and here the length of the work week, the totals of employment and joblessness and wage scale trends are watched. Other factors: dividends, rents, interest, the price of farm products, and, increasingly, industrial pensions and social security. Shifts in saving habits are studied closely.

Population trends, both national and regional, are charted by many firms. Many industrial goods manufacturers report their forecasters also study the business prospects of companies that buy from them.

CHS Seniors To Present Sincere Military Play

British Hospital Setting For Story

The story takes place in a British military hospital, constructed of bamboo. It is located in the Southsea Islands.

Lachie, a Scottish serviceman, is the main character in the play.

A very unfriendly sort of fellow, Lachie does not know the military doctor has given him a short time to live.

His hospital companions try to get acquainted with him. They put their best foot forward and give all the friendship he will accept.

They even buy him a kilt for his birthday.

No one had ever shown so much kindness, so naturally, Lachie returns the friendliness.

As the play advances he falls in love with the nurse. They plan to be married.

Everything seems fine, and then Lachie discovers his plight.

Knowing that he is going to die, he thinks the others pitied him, and that was the reason for their kindness.

Again he becomes bitter and unfriendly, and decides to go back to Scotland, alone, to die.

That is the plot of "The Hasty Heart," to be presented by Circleville High School seniors Friday and Saturday, March 15 and 16 in the high school auditorium.

Why not plan to attend the play and witness first hand the outcome. Tickets will be on reserve Monday noon at Rexall Drug Store.

"The Hasty Heart," which was made into a movie, was written by John Patrick. He is also author of "The Teahouse of the August Moon."

Cast in the play are: Glenn Metzler as Lachie, Joyce Grafis portrays Margaret the English nurse.

Ronald Straight is the English hospital orderly. Dick Banks is Digger, former Australian prize fighter.

David Carpenter portrays the very fat English doctor with the rank of Colonel.

Carl Porter plays Tommy, also English.

Bob McClure is Blossom, South African native who can not speak English.

Bob Fowler is cast as Yank, only American in the play.

T. D. VanCamp is Kiwi, a New Zealander.

The play is under the direction of Mrs. C. R. Pruden, CHS teacher. Jean Overly is student director; Robert Bobbitt, stage crew chairman; Annabelle Swackhammer, publicity chairman; Sue Smith, costume chairman; Carol Ann Johnson, ticket chairman; and Anne Adkins, property chairman. The play is being presented Friday and Saturday, instead of Thursday and Friday, as in previous years, in hopes that a larger crowd will be able to attend.

Loyal Daughters Hold Meet In Service Center

The Loyal Daughters Class of First Evangelical United Brethren Church met in the service center for its regular monthly meeting.

Twenty-nine members and one guest were present.

Devotions were in charge of Mrs. Marie Brooks, and scripture was read by Mrs. Evelyn Blue. Mrs. Catherine Martin led the group in prayer, after which Mrs. Carrie Ater and Mrs. Dorothea Woodward gave readings. Devotions were closed with the group repeating "The Lord's Prayer."

In the absence of the president, Mrs. Mae Hawkes conducted the business meeting.

A nominating committee and calendar committee were appointed.

The business session closed with the theme song and prayer by Mrs. Agnes Nau and Mrs. Gertrude Gibbs.

Mrs. Ella Mae Arledge conducted contests with Mrs. Ella Overy and Mrs. Marjory Ankrom, winners.

Lunch was served by Mrs. Hazel Orr, Mrs. Opal Leist, Mrs. Florence Dresbach and Mrs. Helen Roby.

Hobbies Offer Interest For Single Women

So often one hears a young unmarried woman complain: "I have nothing to do with myself," or "It's so lonesome sitting home alone night after night."

What a dismal complaint, and what an unnecessary one! The world is so full of a number of things, one wonders how anyone can have "nothing to do."

Obviously such gals do not realize that one of the basics of charm, is to keep the mind active, keen, alert and eager to learn.

So, if you are in a "nothing-to-do" rut, get out of it. Go after a hobby.

There must be some one thing you have always wanted to do — make jewelry, take up painting, play the piano, refinish furniture, try home sewing. Everyone has a creative side and a hobby is just the thing to bring it to the fore.

Most cities offer courses in hobby pursuits. If there is not one available in your town, there certainly must be a library where you can find books on the subject you want to take up.

Get interested in a hobby and you will be more interesting to other people. There is nothing like a specialty to make a person sparkle. When her "subject" comes up in the conversation — and she is usually the first to introduce it — a gal has something intriguing to say. What is more, a hobby offers satisfaction. Instead of complaining, hobbyists do things and there are things to show off proudly to new friends, probably fellow hobbyists.

Phyllis Dresbach Chosen Representative In Contest

Miss Phyllis Dresbach of Miami Valley School of Nursing, Dayton, has been chosen to represent district 10 student nurses in the Miss Student Nurse of Ohio Contest, which will be held April 11 in Columbus.

She is the daughter of Mr. and Mrs. Melvin L. Dresbach of 412 E. Mound St.

Miss Dresbach's essay on the

"Realm of Nursing" won her the honor to represent five schools in district 10. The following are the five schools:

St. Elizabeth, Dayton; Good Samaritan, Dayton; Miami Valley, Dayton; Springfield, and Middletown.

Miss Dresbach was guest at a reception at the Miami Valley Hospital, and was awarded a silver bracelet and fountain pen.

4-H Club Activities

The first meeting of the Future Farmers of Monroe 4-H Club for 1957 was held in the school.

The advisor opened the meeting and conducted election of new officers. Those elected were:

Ponda Liston, president; Marilyn Shell, vice-president; Judy Dennis, secretary; David Johnson, Betty Beathard and Jeanette Brigner, news reporters.

The following new members were accepted into the club: Brenda Houser, Donna Rittinger, Dick Long, Carol Liston, Paul Porter, Sue Houser, Gary Depugh and Neil Depugh.

The group decided to hold meetings the same as last year.

Assistant agent, Mr. Kroetz attended the meeting, and gave a talk.

Next meeting will be March 27 in the school.

The Roundtown Chatters 4-H Club held its first meeting in the county extension office.

The first thing on the agenda

was the selection of projects for the club. Projects chosen were: Good Food of Snacking and Packing, Easy to Make Cotton Dress, Let's Care for Children, and School Dress.

During the election of officers Pam Grant was chosen president; Paula Francis, vice-president; Paula Denham, secretary; Sharon Andonian, treasurer; Gloria Hamrick, health leader; Karen O'Donnell, safety leader; Betty Fraser, recreation leader; and Judy Eddy, news reporter.

The group decided to meet every other Tuesday during school, and every Tuesday after school lets out this May.

The members of the group are from the Merry Mixers and the Cook, Sew and Chatter 4-H Clubs. Mrs. C. N. Felkey is leader for this year.

The next meeting will be March 19 in the county extension office.

Modern Healing Claims Put To The Test

In previous articles in this series we have conclusively shown that there is a marked contrast between the miracles of healing of the New Testament Era and those who make such claims today. In the days of Christ and the apostles the cures were instantaneous, complete, without any relapses, and unmistakably genuine. Today, there are "mind cures" promoted by excitement and faith, but we deny that any MIRACLES OF HEALING are being performed today.

"TRY THE SPIRITS" John said, "Beloved, believe not every spirit, but try the spirits whether they are of God; because many false prophets are gone out into the world" (1 John 4:1). Paul said, "Prove all things; hold fast that which is good" (1 Thess. 5:21). Thus we must not accept without question every thing that may be palmed off on us in the name of religion. The Bible is our standard. We must test and try all teachers thereby.

FRAUDULENT CLAIMS Many claims of miraculous divine healing have been made throughout the country. Scores of these so-called "cures" have been tested after the healing ceremony and have been found in a state of "relapse" or even worse than they were before. Several have been known to die within a few hours of the time a "miraculous cure" has been wrought. One noted faith healer himself died of polio for refusing medical aid. Eternity alone will re- port us to the way of truth more perfectly. Our prayer is that claims of false teachers.

\$100 REWARD OFFERED The wise man said, "Buy the truth, and sell it not" (Prov. 23:23). If those who claim miraculous healing powers will produce one bonafide case of INSTANT, COMPLETE, MIRACULOUS healing of external eating cancer, total blindness, broken limbs, total deafness, a deformed body, or one restored to life 24 hours after death, the church of Christ at the below address will pay \$100 reward upon receipt of evidence of such attested to by three reputable Circleville physicians.

We do not say these things boastfully, but humbly and with the realization that we could be wrong. If we are wrong in the claims we have made we hope that those who know better will reveal how many have been misled and deceived by fraudulent we may "know the truth" which only can make us free from error, deception and sin (John 8:32). The Bible is true. May we diligently study it!

50th Anniversary Celebrated By William Cadys

Mr. and Mrs. William B. Cadys of Circleville celebrated their 50th wedding anniversary.

They were honored at a family dinner party, held in the home of Mr. and Mrs. Chester Fausnaugh of near Ashville.

Mr. and Mrs. Cadys were married in Columbus, February 28, 1907, by the Rev. John F. Schneider. They have been residents of Circleville for the past 35 years.

Mrs. Cadys, the former Alice Estella Gulick, was born in Monroe Township, the daughter of Ira and Amelia Gulick.

Mr. Cadys, a retired army officer, was born in Meigs County. He spent 30 years in active service, the latter part of which he was a drillmaster at Ohio State University, Columbus.

Mr. Cadys has also served as mayor of Circleville for three terms. Both Mr. and Mrs. Cadys have been active in the Masonic Orders. Mr. Cadys is a 32nd degree Mason and Mrs. Cadys, past Worthy Matron of the Order of Eastern Star, served as treasurer for a number of years.

The couple has two daughters, Mrs. Elizabeth Summers of Cleveland and Mrs. Virginia Fausnaugh of Ashville; four grandchildren, Peggy, Sally and Betsy Summers and Nancy Fausnaugh.

15 Attend Church Class Meeting In Grist Home

Fourteen members and one guest, Mrs. M. B. Griest, were present when Mrs. Dwight L. Steele entertained Mrs. Marion's Sunday School Class of First Methodist Church in her home at 416 S. Court St.

Mrs. E. Garold Crites, president, conducted the business meeting.

Mrs. Barton Deming gave the devotion, after which a letter was read from Mrs. Marion, former teacher.

Self denial envelopes were given to members by Mrs. Herbert Southard, chairman of the ways and means committee.

Mrs. Crites appointed the following to a nominating committee to prepare a slate of officers for 1957-58:

Mrs. Steele, Mrs. Virgil Cress and Miss Margie Carmean. Church announcements were given by Mrs. Steele, and games were played with the prizes going to: Mrs. David S. Goldschmidt, Mrs. Roscoe Warren and Mrs. Southward.

Decorations were carried out in a St. Patrick's Day theme and each member received a corsage.

Refreshments were served by the hostess and Mrs. Frank H. Kline and Mrs. Barton Deming.

Redecorate With Plants For Inexpensive Change

"Ouch!"

That is the budgetary reaction to redecorating! It can be an expensive business if it means getting rid of all old furnishings and starting from scratch.

But redecorating need not be as thorough as all that. Its main purpose is to change the indoor look and this can be easily and inexpensively achieved with a few new and well-chosen accessories.

Along these lines you might consider plants. Their green touch is frequently just the right thing to perk up the premises.

Start with a plan. Jot down the house areas that need brightening, then consult your local florist. He can give you expert advice on the best way to use plants effectively around the house.

You might, for example, be weary of looking at that portrait of Great-Uncle Willie. Take it down and store it in a closet for a bit. Give the room a change of pace by hanging a wall planter in its place. A complete change, it will give the area a welcome new look.

Curly green ivy is used to fill a brass wall planter decoratively. It needs very little direct light and so it is best placed away from a window. When top soil feels dry, it is time to give plants a drink.

If you would like to do something different with your coffee table and get away from such traditional toppers as a fruit bowl or candy dish, plants again come to the rescue.

How about a pair of leafy plants in globets? Place them at either end of the table.

But a word of warning — do not

do away with ash trays when you are redecorating. They are necessities not mere accessories. Be sure to include them in your new scheme of things so guests will not be tempted to deposit ashes in the planters.

You might also consider planter lamps, as shown in the above picture. They are attractive and gaining in popularity. Consult your florist about what to plant in them and have him do the job to make sure the plants will flourish.

For tall plants — and they do wonders to fill a corner—consider one of the new glass fiber containers mounted on metal legs. Modern and very handsome, these are available in a variety of shades to match your room's color scheme. Never put plants near a radiator.

Women Golfers To Hold Meet

The first get-together of the Women Golfers of Pickaway County Club will be held Thursday, March 14, in the club house to announce monthly committees for the entire golf season.

The meeting will begin at noon with a luncheon to follow at 1 p. m.

Mrs. Wallace Crist, chairman for the year, is calling the meeting. Reservations for lunch will be appreciated. They can be made by telephoning Mrs. Crist at 1144.

All local women golfers are urged to attend this meeting to get the season off to a good start.

or in a draft. Ask your florist about their light and water requirements. Follow his advice and your new decorations are certain their services for the drive.

The People Who Make Gold Bar Butter Suggest For Your Lenten Dishes . . . LEMON BUTTER SAUCE for fish and sea food

You can't beat the real thing — real butter

Step No. 1. Melt ¼ cup butter (1 stick) in saucepan over very low heat slowly. Stir constantly to prevent foaming. This will give clear, unclouded butter.

You taste the difference even more on hot foods

Step No. 2. To melted butter add 1 tablespoon chopped parsley and 2 tablespoons strained or bottled lemon juice.

Butter is churned from 100% real cream

Step No. 3. Serve at once in butter bowl with ladle or individual melted butter servers. Spoon directly over fish fillets or pour from individual servers.

CHS Seniors To Present Sincere Military Play

British Hospital Setting For Story

The story takes place in a British military hospital, constructed of bamboo. It is located in the Southsea Islands.

Lachie, a Scottish serviceman, is the main character in the play.

A very unfriendly sort of fellow, Lachie does not know the military doctor has given him a short time to live.

His hospital companions try to get acquainted with him. They put their best foot forward and give all the friendship he will accept.

They even buy him a kilt for his birthday.

No one had ever shown so much kindness, so naturally, Lachie returns the friendliness.

As the play advances he falls in love with the nurse. They plan to be married.

Everything seems fine, and then Lachie discovers his plight.

Knowing that he is going to die, he thinks the others pitied him, and that was the reason for their kindness.

Again he becomes bitter and unfriendly, and decides to go back to Scotland, alone, to die.

That is the plot of "The Hasty Heart," to be presented by Circleville High School seniors Friday and Saturday, March 15 and 16 in the high school auditorium.

Why not plan to attend the play and witness first hand the outcome. Tickets will be on reserve Monday noon at Rexall Drug Store.

"The Hasty Heart," which was made into a movie, was written by John Patrick. He is also author of "The Teahouse of the August Moon."

Cast in the play are:

Glenn Metzler as Lachie.

Joyce Graffis portrays Margaret the English nurse.

Ronald Straight is the English hospital orderly.

Dick Banks is Digger, former Australian prize fighter.

David Carpenter portrays the very fat English doctor with the rank of Colonel.

Carl Porter plays Tommy, also English.

Bob McClure is Blosson, South African native who can not speak English.

Bob Fowler is cast as Yank, only American in the play.

T. D. VanCamp is Kiwi, a New Zealander.

The play is under the direction of Mrs. C. R. Pruden, CHS teacher.

Jean Overly is student director.

Robert Bobbitt, stage crew chairman.

Annabelle Swackhammer, publicity chairman.

Sue Smith, costume chairman.

Carol Ann Johnson, ticket chairman.

And Anne Adkins, property chairman.

The play is being presented Friday and Saturday, instead of Thursday and Friday, as in previous years, in hopes that a larger crowd will be able to attend.

Loyal Daughters Hold Meet In Service Center

The Loyal Daughters Class of First Evangelical United Brethren Church met in the service center for its regular monthly meeting.

Twenty-nine members and one guest were present.

Devotions were in charge of Mrs. Marie Brooks, and scripture was read by Mrs. Evelyn Blue.

Mrs. Catherine Martin led the group in prayer, after which Mrs. Carrie Ater and Mrs. Dorothea Woodward gave readings.

Devotions were closed with the group repeating "The Lord's Prayer."

In the absence of the president, Mrs. Mae Hawkes conducted the business meeting.

A nominating committee and calendar committee were appointed.

The business session closed with the theme song and prayer by Mrs. Agnes Nau and Mrs. Gertrude Gibbs.

Mrs. Ella Mae Arledge conducted contests with Mrs. Ella Overy and Mrs. Marjory Ankrom, winners.

Lunch was served by Mrs. Hazel Orz, Mrs. Opal Leist, Mrs. Florence Dresbach and Mrs. Helen Roby.

Hobbies Offer Interest For Single Women

So often one hears a young unmarried woman complain: "I have nothing to do with myself," or "It's so lonesome sitting home alone night after night."

What a dismal complaint, and what an unnecessary one! The world is so full of a number of things, one wonders how anyone can have "nothing to do."

Obviously such girls do not realize that one of the basics of charm, alert and eager to learn.

So, if you are in a "nothing-to-do" rut, get out of it. Go after a hobby.

There must be some one thing you have always wanted to do — make jewelry, take up painting, play the piano, refinish furniture, try home sewing. Everyone has a creative side and a hobby is just the thing to bring it to the fore.

Most cities offer courses in hobby pursuits. If there is not one available in your town, there certainly must be a library where you can find books on the subject you want to take up.

Get interested in a hobby and you will be more interesting to other people. There is nothing like a hobby to make a person sparkle. When her "subject" comes up in the conversation — and she is usually the first to introduce it — a girl has something intriguing to say. What is more, a hobby offers satisfaction. Instead of complaining, hobbyists do things and there are things to show off proudly to new friends, probably fellow hobbyists.

Phyllis Dresbach Chosen Representative In Contest

Miss Phyllis Dresbach of Miami Valley School of Nursing, Dayton, has been chosen to represent district 10 student nurses in the Miss Student Nurse of Ohio Contest, which will be held April 11 in Columbus.

She is the daughter of Mr. and Mrs. Melvin L. Dresbach of 412 E. Mound St.

Miss Dresbach's essay on the "Realm of Nursing" won her the honor to represent five schools in district 10. The following are the five schools:

St. Elizabeth, Dayton; Good Samaritan, Dayton; Miami Valley, Dayton; Springfield, and Middletown.

Miss Dresbach was guest at a reception at the Miami Valley Hospital, and was awarded a silver bracelet and fountain pen.

4-H Club Activities

The first meeting of the Future Farmers of Monroe 4-H Club for 1957 was held in the school.

The advisor opened the meeting and conducted election of new officers. Those elected were:

Fonda Liston, president; Marilyn Shell, vice-president; Judy Dennis, secretary; David Johnson, Betty Beathard and Jeanette Brigner, news reporters.

The following new members were accepted into the club: Brenda Houser, Donna Rittinger, Dick Long, Carol Liston, Paul Porter, Sue Houser, Gary Depugh and Neil Depugh.

The group decided to hold meetings the same as last year.

Assistant agent, Mr. Kroetz attended the meeting, and gave a talk.

Next meeting will be March 27 in the school.

The Roundtown Chatters 4-H Club held its first meeting in the county extension office.

The first thing on the agenda was the selection of projects for the club. Projects chosen were: Good Food of Snacking and Packing, Easy to Make Cotton Dress, Let's Care for Children, and School Dress.

During the election of officers Pam Grant was chosen president; Paula Francis, vice-president; Sharon Andonian, treasurer; Gloria Hamrick, health leader; Karen O'Donnell, safety leader; Betty Fraser, recreation leader; and Judy Eddy, news reporter.

The group decided to meet every other Tuesday during school, and every Tuesday after school lets out this May.

The members of the group are from the Merry Mixers and the Cook, Sew and Chatter 4-H Clubs. Mrs. C. N. Felkey is leader for this year.

The next meeting will be March 19 in the county extension office.

50th Anniversary Celebrated By William Cadys

Mr. and Mrs. William B. Cadys of Circleville celebrated their 50th wedding anniversary.

They were honored at a family dinner party, held in the home of Mr. and Mrs. Chester Fausnaugh of near Ashville.

Mr. and Mrs. Cadys were married in Columbus, February 28, 1907, by the Rev. John F. Schneider. They have been residents of Circleville for the past 35 years.

Mrs. Cadys, the former Alice Estella Gulick, was born in Monroe Township, the daughter of Ira and Amelia Gulick.

Mr. Cadys, a retired army officer, was born in Meigs County. He spent 30 years in active service, the latter part of which he was a drillmaster at Ohio State University, Columbus.

Mr. Cadys has also served as mayor of Circleville for three terms. Both Mr. and Mrs. Cadys have been active in the Masonic Orders. Mr. Cadys is a 32nd degree Mason and Mrs. Cadys, past worthy Matron of the Order of Eastern Star, served as treasurer for a number of years.

The couple has two daughters, Mrs. Elizabeth Summers of Cleveland and Mrs. Virginia Fausnaugh of Ashville; four grandchildren, Peggy, Sally and Betsy Summers and Nancy Fausnaugh.

15 Attend Church Class Meeting In Grist Home

Fourteen members and one guest, Mrs. M. B. Griest, were present when Mrs. Dwight L. Steele entertained Mrs. Marion's Sunday School Class of First Methodist Church in her home at 416 S. Court St.

Mrs. E. Garold Crites, president, conducted the business meeting.

Mrs. Barton Deming gave the devotion, after which a letter was read from Mrs. Marion, former teacher.

Self denial envelopes were given to members by Mrs. Herbert Southward, chairman of the ways and means committee.

Mrs. Crites appointed the following to a nominating committee to prepare a slate of officers for 1957-58:

Mrs. Steele, Mrs. Virgil Cress and Miss Margie Carmean.

Church announcements were given by Mrs. Steele, and games were played with the prizes going to: Mrs. David S. Goldschmidt, Mrs. Roscoe Warren and Mrs. Southward.

Decorations were carried out in a St. Patrick's Day theme and each member received a corsage.

Refreshments were served by the hostess and Mrs. Frank H. Kline and Mrs. Barton Deming.

But a word of warning — do not

do away with ash trays when you are redecorating. They are necessities not mere accessories. Be sure to include them in your new scheme of things so guests will not be tempted to deposit ashes in the planters.

You might also consider planter lamps, as shown in the above picture. They are attractive and gaining in popularity. Consult your florist about what to plant in them and have him do the job to make sure the plants will flourish.

Boxing World All Abuzzing Over Court Rap At Big IBC

NEW YORK (AP) — Boxing men the world over were buzzing today with speculation over "what happens next" in the case of the government versus the International Boxing Club. Nobody right now has any definite idea of what's going to happen.

Federal Judge Sylvester Ryan touched off the bombshell Friday by ruling the IBC was a monopoly and conspiracy in violation of the Sherman Anti-Trust Act in the promotion of world championship fights. The ruling was only on title fights and not on the weekly non-title bouts promoted on Wednesday and Friday nights by the IBC in coast-to-coast radio and television programs.

Just how this alleged monopoly will be broken up remains to be seen. Judge Ryan directed both the government and the IBC to submit proposed decrees within 30 days. Hearings then will be held before a final court order is handed down.

There were indications that if James D. Norris, president of the IBC, and his associates named in the civil suit, thought a final ruling by Ryan was too severe they would appeal to the Court of Appeals and, if necessary, to the Supreme Court. This takes plenty of time.

Most observers felt the government might try to clip the IBC's empire this way: Force the IBC to relinquish some of the big arenas it controls (Madison Square Garden in New York, Chicago Stadium, Detroit Olympia, etc.). Nullify the club's exclusive contracts with champion fighters and make it give up either the Wednesday or Friday night network show.

Ryan, in his 59-page opinion, decided that the IBC of New York the IBC of Illinois, Madison Square Garden Corp., Norris, who is president of all three, and Arthur M. Wirtz of Chicago, Norris' principal associate, were "a combination and conspiracy in unreasonable restraint of trade and commerce in the promotion of professional world championship boxing contests."

The IBC, on advice of counsel, confined its comment to one statement by Norris.

"The court's decision was, of course, a disappointment to me," he said. "All I can say at this time is I hope we will not be prevented from continuing to present Wednesday and Friday night fights which have proved such popular television and radio attractions."

Card Manager Fred Hutchinson will test bonus baby Lindy McDaniel, probably for the middle three innings.

However, McDaniel wasn't the only rookie to get the once-over from his manager. All told, about 30 fledglings were down for three-inning stints.

Rookie Manager Jack Tighe of Detroit Tigers is sending the same lineup against the Boston Red Sox at Sarasota as he expects to use opening day. Jim Finigan, obtained from Kansas City, is the only newcomer. He will play third base.

At Tucson, Ariz., the Cleveland Indians and New York Giants begin their annual series. Cleveland's lineup will be composed strictly of rookies. The Giants will start first-stringers.

At Clearwater, Fla., Manager Mayo Smith of the Philadelphia Phillies planned to go with his best against the Pittsburgh Pirates with Richie Ashburn in his accustomed leadoff spot.

Hunter was placed on probation recently for stealing money in the Elks Club in Riverside, Calif., where he lives.

"The young fellow has made a mistake," Brown said. "I want to give him a chance."

Thomson, Wall Tie For Pensacola Lead

PENSACOLA, Fla. (AP) — Peter Thomson of Australia and Art Wall Jr., one-time Duke University basketball and golf star, held a two-stroke edge on the field today going into the semifinals of the \$15,000 Pensacola Open Golf Tournament.

Openthesthreeyears, xz&er Thomson, winner of the British Open the last three years, played a steady game and came up with his second straight 69 Friday for a six under par 138 total at the end of 36 holes.

The 33-year-old Wall, from Pocomo Manor, Pa., unleashed a hot putter for a four under par 68 to go with his opening day 70.

Only 9 1956 Teams Still In Cage Play

Flock Of New Faces To Appear In State's Regional Tournaments

COLUMBUS, Ohio (P)—A flock of new faces will appear in Ohio's high school regional basketball tournaments next week.

With 15 Class AA and 13 Class A regional qualifiers to be named tonight, only nine of last year's 32 are still on deck.

Two unheralded teams, both Class AA, were among the latest victims in the lose-and-out race to the state finals. Lakewood's 17-game winning streak was halted 63-62 by Elyria, which had been beaten five times. Jackson of Stark County stopped at 19 wins when defeated 71-60 by thrice-defeated Canton Lincoln.

Anthony Wayne and Tiffin Columbian, northwestern Ohio powers, were ushered to the sidelines in Class AA after piling up 17-1 records. Anthony Wayne lost 60-56 to Delphos St. John, while Tiffin Columbian was a 61-58 victim of the Mansfield Tigers, who have dropped 13 in 21 starts.

Both defending champions see action tonight. Middletown's six-time Class AA champions go against Dayton Roosevelt's 1934 champions in the district finals at Dayton. Class A king Arcanum plays Bradford at Springfield for a regional berth.

Lockland Wayne's two-time Class A champions won their way to the Troy regional Friday night with a rousing 56-29 win over Greenhills at Cincinnati. Nelsonville and Newark St. Francis reached the Athens regional, each with a one-point victory.

Nelsonville nosed out Buchtel 46-45 at Athens, and Newark St. Francis was a 66-65 victor over Pleasantville at Westerville.

Still left of last year's regional qualifiers in Class AA are Canton McKinley's always threatening Bulldogs, Columbus North, Toledo Macomber, Middletown and Troy. In Class A the ones with a chance to repeat are Arcanum, Lockland Wayne, Willshire and New Boston.

Of the nine Canton McKinley, Columbus North and Middletown reached the state tourney in Class AA, and Arcanum and Willshire made it in the smaller school division.

With the Class A field of 696 whittled to 29, and the 349 Class AA schools shaved to 31, the final Class AA Associated Press poll is holding up well. Of the top 10 in the final ratings seven are still firing, and two of the other three—Lakewood and Tiffin Columbian—went out Friday night.

Only three of the top 10 in Class A are still around—Vienna, unbeaten Reynoldsburg and Lockland Wayne.

Of Friday night's 31 games, six were decided by a single point, and 13 others by five or less.

St. Louis Assured Of Playoff Berth

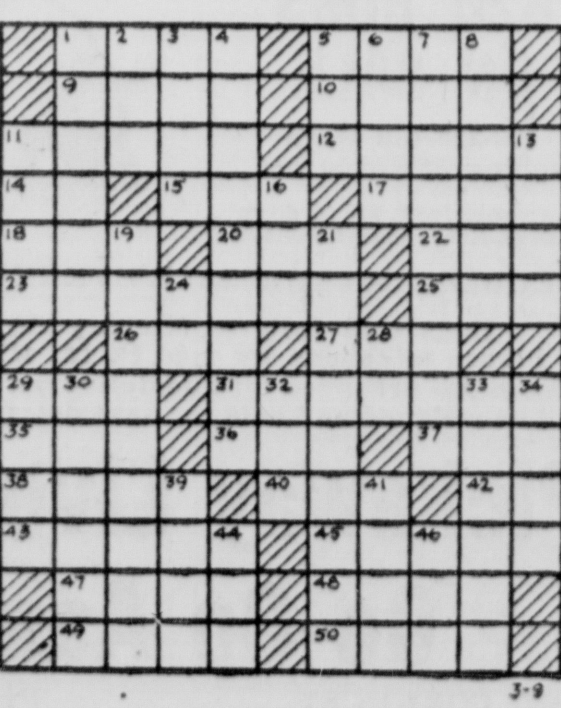

NEW YORK (P)—The playoff picture in the Western Division of the National Basketball Assn. was a little clearer today with the St. Louis Hawks definitely assured of a spot in the post season competition.

The Hawks clinched a playoff spot Friday night by defeating the last place Rochester Royals 100-92 in the first game of all-Western Division doubleheader at Fort Wayne. In the other game, the third place Minneapolis Lakers moved in on the second place Pistons with a 101-97 triumph. Each of the three leaders has three games remaining while only two face Rochester.

Redlegs Eye Third Base Assignment

CLEARWATER, Fla. (P)—Third base looks like a real hot corner for Manager Birdie Tebbets and his Cincinnati Redlegs.

The aggressive Redlegs' skipper has seven positions in his starting lineup set with the start of the spring exhibition games only a day off. But it's anybody's guess who will wind up at third.

Four players are scrambling to succeed erratic Ray Jablonski who was traded to Chicago Cubs.

The quartet includes Alex Grammas, obtained from the St. Louis Cardinals last May; Don Hoak, dealt by the Cubs in the Jablonski transaction; rookie Hal Bevan; and veteran utilityman Rocky Bridges.

Grammas handled third base in the latter stages of the 1956 campaign and finished with a .243 batting average. He always has been a fine defensive player and now has impressed in the spring workouts with his hard hitting.

Hoak and Bevan also have shown well both at bat and afield. Hoak, who came up with the Brooklyn Dodgers, hit .215 for Chicago last season. Bevan batted .302 for Havana in 1956.

Bridges, a steady fielder, batted .211 last year.

Braves Assigned To Sliding Drills

BRADENTON, Fla. (P)—The Milwaukee Braves, including such expensive properties as Eddie Mathews, Hank Aaron and Joe Adcock, have bumped their way through a sliding drill without the aid of pits, sandvut or sand.

"They'd get used to pits," manager Fred Haney said Thursday as he called perspiring Braves up for their turn. "They wouldn't know how to do it once they had to in a game. That's why I want them to slide under actual game conditions."

It's no secret that in the past the Braves were one of the poorest sliding teams in the majors. Haney says that's going to change.

Los Angeles Chief Sure Of Dodgers

LOS ANGELES (P)—Los Angeles Mayor Norris Poulson says "We've got the Dodgers!"

He stepped off a plane Friday enthusiastically over the results of his mission to Vero Beach, Fla., where he conferred with Walter O'Malley, head of the Brooklyn baseball club.

"It's too late to get the Brooklyn team this year, but we'll have the Dodgers in 1958," Poulson said. He declined to elaborate on what

Ohio's Take From Race Bets Jumps \$750,000 In 1956

COLUMBUS, Ohio (P)—Ohio's "take" from horse race betting last year jumped nearly \$750,000 over 1955, James A. Rhodes, state auditor, reported Thursday night.

The 1956 tax on pari-mutuel wagering was \$7,048,482. That means the state share of horse bets passed the seven million dollar mark only five years after it first hit the one-million mark in 1951. State revenue from racing in the first year that betting was legalized—1933—was \$104,139.

The number of days of racing in Ohio last year was 3½ times the number in 1933, but 19¼ times as much money was wagered.

Ohio racing fans last year backed their favorite horses with bets totaling \$123,567,758 against the 1933 total of \$6,412,510. There were 589 racing dates in 1956 and 170 in 1933.

Comparative state revenue figures for major running tracks (1956 figure first and 1955 figure second):

Ascot Park (Akron) \$843,629 and \$700,948.

plans were made for finding the Brooklyn team a ballpark, saying only: "We feel we can provide a stadium for the Dodgers."

Beulah Park (Columbus) \$669,701 and \$605,899.
Cleveland Raceways (Cranwood) \$850,551 and \$779,767.
Hamilton Raceways \$339,942 and \$233,043.

Randall Park (Cleveland) \$1,122,172 and \$1,043,594.
River Downs (Cincinnati) \$854,067 and \$806,309.

Toledo Turf Club \$282,055 and \$238,102.
Comparative figures for major harness race tracks:

Aurora Downs (Solon) \$408,136 and \$330,766.
Columbus Trotting (Hilliards) \$100,472 and \$95,065.

Lebanon Trotting Assn. \$97,019 and \$105,195.
Fainesville Raceway \$159,191 and \$153,576.

The drop at Lebanon was the only state revenue decrease noted in Rhodes' report.

Recruiting Ad Cost Hit By Senator

WASHINGTON (P)—Sen. Stennis (D-Miss) revealed he has a hunch that the various armed services are spending "too much money" on television, billboard and other recruiting advertising.

As acting chairman of the Senate Armed Services Committee, the former Mississippi judge has asked a detailed Pentagon report on just how much the armed services spend on their drives.

"It seems to me that every time I turn on the TV there is some new appeal for the Navy, the Army, the Air Force or the Marines to join," Stennis said.

A Pentagon information spokesman reported the four major services spent more than \$1½ million during the last half of last year on recruiting ads.

of Arts and Sciences and the Evening College.

The new salary scale will bring the average faculty salary to \$6,423, as compared to \$5,538 at present. The new range according to faculty rank will be: Instructors, \$4,500 to \$5,500; assistant professors, \$5,500 to \$6,500; associate professors, \$6,500 to \$8,000; and professors from \$7,000 upward.

Czechs Halt Athletes In Marriage Try

PRAGUE (P)—Czechoslovakia's Communist rulers have dealt romance a setback.

They ordered Harold Connolly, America's Olympic hammer throw champion, to leave the country by today without permission to marry and take with him his fiancée, Olga Fikotova, Czechoslovakia's Olympic discus champion.

Harold, who came here last week with high hopes of carrying the comely brunette off as his bride to America, announced disconsolately that he must take a plane back to Vienna.

Czech law requires state permission for a citizen to marry a foreigner.

Olga, 24-year-old medical student, tried to comfort Connolly, a 26-year-old Boston school teacher, although she was herself near tears. She promised they would both keep trying for the wedding license, which would be her ticket to America.

Only 9 1956 Teams Still In Cage Play

Flock Of New Faces To Appear In State's Regional Tournaments

COLUMBUS, Ohio (P)—A flock of new faces will appear in Ohio's high school regional basketball tournaments next week.

With 15 Class AA and 13 Class A regional qualifiers to be named tonight, only nine of last year's 32 are still on deck.

Two unbeaten teams, both Class AA, were among the latest victims in the lose-and-out race to the state finals. Lakewood's 17-game winning streak was halted 63-62 by Elyria, which had been beaten five times. Jackson of Stark County stopped at 19 wins when defeated 71-60 by thrice-defeated Canton Lincoln.

Anthony Wayne and Tiffin Columbian, northwestern Ohio powers, were ushered to the sidelines in Class AA after piling up 17-1 records. Anthony Wayne lost 60-56 to Delphos St. John, while Tiffin Columbian was a 61-58 victim of the Mansfield Tigers, who have dropped 13 in 21 starts.

Both defending champions see action tonight. Middletown's six-time Class AA champions go against Dayton Roosevelt's 1934 champions in the district finals at Dayton. Class A king Arcanum plays Bradford at Springfield for a regional berth.

Lockland Wayne's two-time Class A champions won their way to the Troy regional Friday night with a rousing 56-29 win over Greenhills at Cincinnati. Nelsonville and Newark St. Francis reached the Athens regional, each with a one-point victory.

Nelsonville nosed out Buchtel 46-45 at Athens, and Newark St. Francis was a 66-65 victor over Pleasantville at Westerville.

Still left of last year's regional qualifiers in Class AA are Canton McKinley's always - threatening Bulldogs, Columbus North, Toledo Macomber, Middletown and Troy. In Class A the ones with a chance to repeat are Arcanum, Lockland Wayne, Willshire and New Boston.

Of the nine, Canton McKinley, Columbus North and Middletown reached the state tourney in Class AA, and Arcanum and Willshire made it in the smaller school division.

With the Class A field of 696 whittled to 29, and the 349 Class AA schools shaved to 31, the final Class AA Associated Press poll is holding up well. Of the top 10 in the final ratings seven are still firing, and two of the other three—Lakewood and Tiffin Columbian—went out Friday night.

Only three of the top 10 in Class A are still around—Vienna, unbeaten Reynoldsburg and Lockland Wayne.

Of Friday night's 31 games, six were decided by a single point, and 13 others by five or less.

St. Louis Assured Of Playoff Berth

NEW YORK (P)—The playoff picture in the Western Division of the National Basketball Assn. was a little clearer today with the St. Louis Hawks definitely assured of a spot in the best season competition.

The Hawks clinched a playoff spot Friday night by defeating the last place Rochester Royals 100-92 in the first game of all-Western Division doubleheader at Fort Wayne. In the other game, the third place Minneapolis Lakers moved in on the second place Pistons with a 101-97 triumph. Each of the three leaders has three games remaining while only two face Rochester.

Redlegs Eye Third Base Assignment

CLEARWATER, Fla. (P)—Third base looks like a real hot corner for Manager Birdie Tebbets and his Cincinnati Redlegs.

The aggressive Redlegs' skipper has seven positions in his starting lineup set with the start of the spring exhibition games only a day off. But it's anybody's guess who will wind up at third.

Four players are scrambling to succeed erratic Ray Jablonski who was traded to Chicago Cubs. The quartet includes Alex Grammas, obtained from the St. Louis Cardinals last May; Don Hoak, dealt by the Cubs in the Jablonski transaction; rookie Hal Beck; and veteran utilityman Rocky Bridges.

Grammas handled third base in the latter stages of the 1956 campaign and finished with a .243 batting average. He always has been a fine defensive player and now has impressed in the spring workouts with his hard hitting.

Hoak and Beck also have shown well both at bat and in the field. Hoak, who came up with the Brooklyn Dodgers, hit .215 for Chicago last season. Beck batted .302 for Havana in 1956. Bridges, a steady fielder, batted .211 last year.

Braves Assigned To Sliding Drills

BRADENTON, Fla. (P)—The Milwaukee Braves, including such expensive properties as Eddie Mathews, Hank Aaron and Joe Adcock, have bumped their way through a sliding drill without the aid of pits, sawdust or sand.

"They'd get used to pits," manager Fred Haney said Thursday as he called perspiring Braves up for their turn. "They wouldn't know how to do it once they had to in a game. That's why I want them to slide under actual game conditions."

It's no secret that in the past the Braves were one of the poorest sliding teams in the majors. Haney says that's going to change.

Los Angeles Chief Sure Of Dodgers

LOS ANGELES (P)—Los Angeles Mayor Norris Poulson says "We've got the Dodgers!"

He stepped off a plane Friday enthusiastic over the results of his mission to Vero Beach, Fla., where he conferred with Walter O'Malley, head of the Brooklyn baseball club.

"It's too late to get the Brooklyn team this year, but we'll have the Dodgers in 1958," Poulson said. He declined to elaborate on what

Ohio's Take From Race Bets Jumps \$750,000 In 1956

COLUMBUS, Ohio (P)—Ohio's "take" from horse race betting last year jumped nearly \$750,000 over 1955, James A. Rhodes, state auditor, reported Thursday night.

The 1956 tax on pari-mutuel wagering was \$7,048,482. That means the state share of horse bets passed the seven million dollar mark only five years after it first hit the one-million mark in 1951. State revenue from racing in the first year that betting was legalized—1933—was \$104,139.

The number of days of racing in Ohio last year was 344 times the number in 1933, but 1944 times as much money was wagered.

Ohio racing fans last year backed their favorite horses with bets totaling \$123,567,758 against the 1933 total of \$6,412,510. There were 589 racing dates in 1956 and 170 in 1933.

Comparative state revenue figures for major running tracks (1956 figure first and 1955 figure second): Ascot Park (Akron) \$843,629 and \$700,948.

Beulah Park (Columbus) \$669,701 and \$605,899.

Cleveland Raceways (Cranwood) \$850,551 and \$779,767.

Hamilton Raceways \$339,942 and \$233,043.

Randall Park (Cleveland) \$1,122,172 and \$1,043,594.

River Downs (Cincinnati) \$854,067 and \$806,309.

Toledo Turf Club \$282,055 and \$238,102.

Comparative figures for major harness race tracks: Aurora Downs (Solon) \$408,136 and \$330,766.

Columbus Trotting (Hilliards) \$100,472 and \$95,065.

Lebanon Trotting Assn. \$97,019 and \$105,195.

Painesville Raceway \$139,191 and \$153,576.

The drop at Lebanon was the only state revenue decrease noted in Rhodes' report.

Xavier Faculty To Get Pay-Hike

CINCINNATI (P)—The faculty of Xavier University will get pay raises of approximately 15 percent, effective next September.

At the same time, tuition charges will be increased in the College

Recruiting Ad Cost Hit By Senator

WASHINGTON (P)—Sen. Stennis (D-Miss) revealed he has a hunch that the various armed services are spending "too much money" on television, billboard and other recruiting advertising.

As acting chairman of the Senate Armed Services Committee, the former Mississippi judge has asked a detailed Pentagon report on just how much the armed services spend on their drives.

"It seems to me that every time I turn on the TV there is some new appeal for the Navy, the Army, the Air Force or the Marines to join," Stennis said.

A Pentagon information spokesman reported the four major services spent more than \$11 million during the last half of last year on recruiting ads.

of Arts and Sciences and the Evening College.

The new salary scale will bring the average faculty salary to \$6,423, as compared to \$5,538 at present. The new range according to faculty rank will be: Instructors, \$4,500 to \$5,500; assistant professors, \$5,500 to \$6,500; associate professors, \$6,500 to \$8,000; and professors from \$7,000 upward.

Czechs Halt Athletes In Marriage Try

PRAGUE (P)—Czechoslovakia's Communist rulers have dealt romance a setback.

They ordered Harold Connolly, America's Olympic hammer throw champion, to leave the country by today without permission to marry and take with him his fiancée, Olga Fikotova, Czechoslovakia's Olympic discus champion.

Harold, who came here last week with high hopes of carrying the comely brunette off as his bride to America, announced disconsolately that he must take a plane back to Vienna.

Czech law requires state permission for a citizen to marry a foreigner.

Olga, 24-year-old medical student, tried to comfort Connolly, a 26-year-old Boston school teacher, although she was herself near tears. She promised they would both keep trying for the wedding license, which would be her ticket to America.

Wide Range Of Subjects Offered In New List Of Library's Films

Educational films on subjects ranging from etiquette to vandalism are included in the list of "home movies" announced for March circulation by the Pickaway County District Library.

The films, several of them in color, are available for a fee of 25 cents for each 24-hour rental period.

Listing the titles, showing times, and brief descriptions, the library announced the March assortment as follows: (black-and-white unless color is specified)

THE AMERICAN FLAG (Color; 13 minutes)—Born as we fought for liberty, our flag grew with the nation. Here is the stirring dramatization of the march of events out of which the Stars and Stripes has emerged as the emblem of our nation's independence and unity. (American History)

ANIMAL HOMES (11 minutes)—Shows where animals live, in trees, in the ground, and in the water. Not only are settings and exterior scenes of different homes shown, but views are provided inside such homes as those of the trapdoor spider, raccoon, skunk, woodchuck, and wood mouse. (Nature—Animals)

ANIMALS UNLIMITED (Color; 19½ minutes)—Wild animal life is seen in its natural state in the large game reserves in the Union of South Africa. Includes scenes of small antelopes, giraffes and elephants, crocodiles fighting in a muddy river, zebras, tssebe, and all the animals running in terror from a charging lion. (Animals—Habitats and Behavior)

A CLOSED BOOK (25 minutes)—The story of a successful safety campaign in a small community. Local citizens come to the support of the safety club and its program after an accident proves to them the need for safety education and for organization to make people safety conscious. (Safety)

COLUMBIA ADVENTURE (Color; 13 minutes)—California engineer and family enjoy the wonders of the Columbia River watershed as they motor from its mouth to its source in the Canadian Rockies. After a pause at Bonneville and Grand Coulee, they join their Canadian cousins at Eisenhower Junction where they relax in pinescent air and sleep under the stars. Climax is a visit to the Columbia Ice Field and the majestic Athabasca Glacier. (Travel in Canada)

CONDUCTING A MEETING (10 minutes)—Conducting a meeting emphasizes the importance of parliamentary procedure in conducting a successful and democratic meeting. Demonstrates and explains such things as prescribed order of business, reports of committees, the history of a main motion, discussion of business, and adjournment. Throughout the film, appropriate occasions are used to stress the importance of good speech habits. (English and Speech)

THE CONGRESS (21 minutes)—The film describes the powers of congress both as expressly provided in the Constitution and as developed through application of the principle of implied powers. Authentic scenes filmed in Washington show a legislative committee at work. The relationship between Congress and the other branches of the government, and the procedures through which Congress enacts laws and directs federal policies are clearly explained. (Government)

DEFINING DEMOCRACY (18 minutes)—Stresses the importance of defining terms before starting

a discussion on democracy or despotism. Conditions in a community which tend toward democracy or despotism are shown. (Civics History—Sociology—Problems of Democracy—Government)

FRANCE AND ITS PEOPLE (13 minutes)—Shows the characteristic attitudes and activities and the social continuity based largely on family life that has preserved many rural, economic, and domestic traditions of France. (Social Studies—French Language)

FROM TEE TO GREEN (Color; 11 minutes)—Tour of fine Canadian golf courses from Newfoundland to Vancouver. Hitch-hiking and working his way across Canada as a caddy, our young traveller sees the best golf courses in the country and all the kinds of golfers who play them. (Travel in Canada—Sports)

GLACIER TRAILS (10 minutes)—A visit to Glacier Park in Montana, with a trip up the mountain and views of the Glacier in the distance. (Travel)

HOW DO YOU DO (15 minutes)—Presents situations that require introductions, at home, at a dance, at a party, and at a store. Designed to help build social poise and self-assurance. (ETIQUETTE)

MONKEY AND THE ORGAN GRINDER (10 minutes)—Almost every day in the park, Tony, the monkey, did a little dance while Mr. Russo turned the crank of his hand organ. Afterwards, Tony tipped his hat to thank the children who handed him their pennies. One day, however, Mr. Russo fell asleep and Tony went alone to see the children. Frightened by the noisy traffic, he was returned to Mr. Russo's home by the children who from then on came to Mr. Russo's yard to see the monkey and the organ grinder. (Background for Reading)

INCOME TAX FACTS No. 7— Not All Income is Taxable

(This is one of a series of articles on federal income tax filing. These articles are based on information provided by the American Institute of Accountants, and the Ohio Society of Certified Public Accountants in cooperation with the Internal Revenue Service.)

Taxpayers make more mistakes in listing their income than any other type of error, according to a survey made by the Internal Revenue Service. It is important to know what to include and what NOT to include. Look at this list and see if you can tell which should be listed on a tax return:

Dividends from an insurance policy

Social Security Benefits

Gifts

Payments received under Workmen's Compensation laws

The answer is that NONE of the above should be listed as taxable income.

There are other forms of exempt income, too, which you will find listed in the official instruction book. Some of them are:

Inheritances and bequests (the estate may be taxed but not the recipient)

Railroad Retirement Act benefits

Certain health and accident benefits

Damages awarded by a court or paid out of court for personal injuries

Government payments and benefits to veterans and their families, except nondisability retirement pay and interest on national leave bonds.

How Prizes Are Taxed

If you won a prize, watch this fine distinction: the prize is taxable if you were required to exert even the slightest effort to earn it; on the other hand, if it was made in recognition of scientific, literary or other achievement you would have performed anyway, the prize is considered a gift and you are not taxed on it.

Most scholarships and fellowships are exempt unless they are paid as compensation for services, such as teaching and research. Another point to remember in connection with scholarships: in figuring support for a dependent you do not have to count scholarships received by a student.

Some income, such as limited amounts of "sick pay" and the first \$50 of certain dividends, must be explained in the tax return, but are not taxed.

If you have an annuity from life insurance, pension plan or other source, the portion which you may receive tax-free depends on your life expectancy and the amount you paid for the annuity. The Internal Revenue Service will furnish actuarial tables upon request to help you figure this out.

Anyone who owns stock needs to know about the dividend exclusion and credit. This applies only to dividends from corporations which are subject to United States corporation income tax and does not include dividends from savings and loan associations, credit unions or foreign corporations.

Your first \$50 of qualified dividends is tax free. Husband and wife are each entitled to exclude the first \$50 for dividends on stocks that each owns.

If you received dividends beyond this amount, you are entitled to a "dividends received credit". This credit is 4% of the remaining dividends, but it cannot be more than 4% of your taxable income, or more than the amount of tax otherwise due. The credit is not just a deduction from your taxable income—it is actually subtracted from your tax.

For example, if you received \$550 in dividends, you can exclude \$50 from your taxable income and subtract 4% of \$500—or \$20—from the tax you would otherwise pay. The last page of the tax form provides a schedule for figuring the amount of your credit.

The instruction book which comes with your tax forms gives further information. Help is also available by telephone or at offices of the Internal Revenue Service. The Revenue Service urges you to consult a properly qualified advisor if you decide to seek outside help.

Ike Endorses Hall In Bid In New York

WASHINGTON (AP)—President Eisenhower's enthusiastic endorsement appeared today to have given former Republican National Chairman Leonard W. Hall the inside track for next year's GOP nomination for governor of New York.

Eisenhower told a cocktail party gathering of GOP members of the Senate, House, cabinet and executive agencies here Thursday night that if Hall wants to try for the governorship he will have the President as a "booster."

Observing that newspapermen had speculated Hall would like to make the race, Eisenhower drew a laugh from about 200 GOP members when he said he never participates in politics "in the several states."

More Aid Urged For Asia, Africa

WASHINGTON (AP)—A presidential advisory board has urged Congress to put up millions of dollars for grants and easy term loans to help Asian-African countries develop their economies.

The proposal was made in a report to President Eisenhower by the International Development Advisory Board, headed by Eric Johnston, president of the Motion Picture Assn. of America.

The report mentioned no specific figure, but called for a "substantial increase" in the \$385 million appropriated annually for strictly nonmilitary aid.

Gallipolis Council OKs Sewage Deal

GALLIPOLIS (AP)—City Council has passed an ordinance calling for insurance of \$900,000 in first mortgage revenue bonds to finance a sewage disposal system.

The action appeared to end a long battle of the city with the Ohio Water Pollution Control Board over dumping of raw sewage into the Ohio River.

The move came less than a month after the Fourth District Court of Appeals upheld the state board in its actions against the city. The board had refused to renew the city's sewage discharge permit.

Germans Revive Falconry; Dates Back To Middle Ages

Freiburg, West Germany — Agatha is a falcon with a broken leg that wouldn't mend properly.

So Agatha's owner did what Germany's falconers consider natural thing: he took Agatha to the University of Freiburg's school of medicine for an X-ray and vitamin treatment.

In the Middle Ages literally the sport of kings, falconry is being revived in Germany as a popular pastime. Today's German falconers may come from every walk and class. Many make personal sacrifices to stay in falconry.

Falconry never will be a mass sport. However, Germany's falconers are fanatics all. No other sport in Germany has such a dedicated following.

THE GERMANS still adhere to the ancient traditions of falconry, dating back to the zenith of Chinese culture. German Emperor Frederick II's Latin text on falconry remains the most up-to-date and exhaustive material on this sport.

It has changed in only two directions since the Prussian king's time. Aside from the influx of commoners, the principal game hunted today are not cranes and herons, as in Frederick's time, but rabbits, crows and cocks.

In the Black Forest the Waldorf falcon farm, Europe's largest, has 60 falcons trained to pounce on hare, quail, duck and geese.

Kraft Wulke, owner of the Waldorf farm, disagrees that falconry is a cruel sport. On the contrary, "falconry's tradition, its beauty and its humaneness make it the world's most noble sport," insists the German falconer.

"Birds can be trained to hunt within two weeks, and each bird is taught to hunt only one type of prey. It is primarily a matter of teaching the birds to roost on your arm. When they have learned that, they can be taken to the field and always will come back."

Falconry embraces not only falcons but other birds trained to hunt. In Germany the favorite bird for falconry is not a falcon—but a goshawk.

THE WALDORF farm's residents include goshawks, sparrow hawks, passenger falcons, kestrels, eagles, horned owls and even a talking crow with a repertoire of 14 complete sentences and a

Falconer Renz Waller and pet hunting bird.

passion for chewing up cigars. Fastest hunting bird is the little tree falcon, which can chase its prey at up to 200 miles per hour.

Falcons are trained to hunt through the use of various baits. Flying prey is simulated by a feathered dummy swung through the air until the bird goes after it and brings it back to the hunter's arm. A piece of meat is tied to the dummy.

When not hunting, the birds are kept hooded. "The birds are carried on a leash, and they try to hunt as soon as they see their prey. If they weren't hooded, they would become so tired from the excitement, they couldn't be effective," Warlies explained.

Falconers follow standard hunting rules, including observance of seasons. They must have a hunting license. Autumn is the favorite season, and every week-end the falconers take to the woodlands, usually as guests of estate owners.

It is a dramatic spectacle to watch the falconer, immobile as a statue, at some elevated spot with the falcon on his wrist. At the moment the ferret drives a rabbit from its burrow the falcon rises

high into the air from the falconer's outstretched fist.

After flying over the prey, the falcon hovers motionless in the sky for a few seconds before plummeting to earth like a stone.

THEN IT proudly holds its prey

until, obediently, it returns to its master's wrist. The hunting bird's claws are so sharp that the falconer must wear a heavy leather glove to protect his hand and arm.

If well treated, a falcon lives to an astonishing age. There is a record of one found in France in 1770, wearing a gold collar stamped with the date 1610! The owner: King James I of England.

Wide Range Of Subjects Offered In New List Of Library's Films

Educational films on subjects ranging from etiquette to vandalism are included in the list of "home movies" announced for March circulation by the Pickaway County District Library.

The films, several of them in color, are available for a fee of 25 cents for each 24-hour rental period.

Listing the titles, showing times, and brief descriptions, the library announced the March assortment as follows: (black-and-white unless color is specified)

THE AMERICAN FLAG (Color; 13 minutes)—Born as we fought for liberty, our flag grew with the nation. Here is the stirring dramatization of the march of events out of which the Stars and Stripes has emerged as the emblem of our nation's independence and unity. (American History)

ANIMAL HOMES (11 minutes)—Shows where animals live, in trees, in the ground, and in the water. Not only are settings and exterior scenes of different homes shown, but views are provided inside such homes as those of the trapdoor spider, raccoon, skunk, woodchuck, and wood mouse. (Nature—Animals)

ANIMALS UNLIMITED (Color; 19½ minutes)—Wild animal life is seen in its natural state in the large game reserves in the Union of South Africa. Includes scenes of small antelopes, giraffes and elephants, crocodiles fighting in a muddy river, zebras, tschebe, and all the animals running in terror from a charging lion. (Animals—Habits and Behavior)

A CLOSED BOOK (25 minutes)—The story of a successful safety campaign in a small community. Local citizens come to the support of the safety club and its program after an accident proves to them the need for safety education and for organization to make people safety conscious. (Safety)

COLUMBIA ADVENTURE (Color; 13 minutes)—California engineer and family enjoy the wonders of the Columbia River watershed as they motor from its mouth to its source in the Canadian Rockies. After a pause at Bonneville and Grand Coulee, they join their Canadian cousins at Eisenhower Junction where they relax in pinescent air and sleep under the stars. Climax is a visit to the Columbia Ice Field and the majestic Athabasca Glacier. (Travel in Canada)

CONDUCTING A MEETING (10 minutes)—Conducting a meeting emphasizes the importance of parliamentary procedure in conducting a successful and democratic meeting. Demonstrates and explains such things as prescribed order of business, reports of committees, the history of a main motion, discussion of business, and adjournment. Throughout the film, appropriate occasions are used to stress the importance of good speech habits. (English and Speech)

THE CONGRESS (21 minutes)—The film describes the powers of congress both as expressly provided in the Constitution and as developed through application of the principle of implied powers. Authentic scenes filmed in Washington show a legislative committee at work. The relationship between Congress and the other branches of the government, and the procedures through which Congress enacts laws and directs federal policies are clearly explained. (Government)

DEFINING DEMOCRACY (18 minutes)—Stresses the importance of defining terms before starting

a discussion on democracy or despotism. Conditions in a community which tend toward democracy or despotism are shown. (Civics History—Sociology—Problems of Democracy—Government)

FRANCE AND ITS PEOPLE (13 minutes)—Shows the characteristic attitudes and activities and the social continuity based largely on family life that has preserved many rural, economic, and domestic traditions of France. (Social Studies—French Language)

FROM TEE TO GREEN (Color; 11 minutes)—Tour of fine Canadian golf courses from Newfoundland to Vancouver. Hitch-hiking and working his way across Canada as a caddy, our young traveller sees the best golf courses in the country and all the kinds of golfers who play them. (Travel in Canada—Sports)

GLACIER TRAILS (10 minutes)—A visit to Glacier Park in Montana, with a trip up the mountain and views of the Glacier in the distance. (Travel)

HOW DO YOU DO (15 minutes)—Presents situations that require introductions, at home, at a dance, at a party, and at a store. Designed to help build social poise and self-assurance. (ETIQUETTE)

MONKEY AND THE ORGAN GRINDER (10 minutes)—Almost every day in the park, Tony, the monkey, did a little dance while Mr. Russo turned the crank of his hand organ. Afterwards, Tony tipped his hat to thank the children who handed him their pennies. One day, however, Mr. Russo fell asleep and Tony went alone to see the children. Frightened by the noisy traffic, he was returned to Mr. Russo's home by the children who from then on came to Mr. Russo's yard to see the monkey and the organ grinder. (Background for Reading)

PLAYING GOOD MUSIC: THE STRING QUARTET (14 minutes)—The performance techniques of the Fine Arts Quartet illustrates bowing, fingering, teamwork, and the ways in which musical ideas and leadership are passed from one player to another. Closes with a portion in Mozart's quartet in G major. (Music—Stringed Instruments)

TALE OF THE FIORDS (12 minutes)—Photographed by Arne Sucksdorff. In this remarkable story, a Norwegian girl escapes from her everyday tasks to explore the rugged beauty of her mountain home. This film provides unusual insights into the life of a Norwegian farm family. (Norway in Travel)

TREES TO TRIBUNES (Color; 43 minutes)—Illustrates the various steps to produce a metropolitan newspaper. The scenes begin in the timberlands of Canada and end with the delivery of the newspaper to the reader. (Journalism)

THE VANDALISM (16 minutes)—Three boys, from unhappy home situations, share the feeling of being outsiders. Unable to join in the fun at a high school hangout they walk aimlessly along the dark streets. They climb in an open window at the high school to see a white rabbit in a science room cage. Impulsively they destroy the whole classroom. At court the judge summarizes the factors which led these boys into vandalism and the ways in which such acts could be avoided. (Juvenile Delinquency)
